#### **ARTICLE L. CERTIFICATION REQUIRED BY 40 CFR 111506.5(c)**

If the work of the PROJECT includes the preparation of an Environmental Impact Statement (EIS), the signator to this Contract, being duly sworn, certifies that its company and any person associated therewith in the capacity of owner, partner, director, officer, or major stockholder (five percent or more ownership) does not have any financial or other interest in the outcome of the project including:

When the Sponsor has made an incremental acceptance of a portion of a prime contract, the work of a subcontractor covered by that acceptance is deemed to be satisfactorily completed.

## **APPENDIX A-2 IRAN DIVESTMENT ACT**

As a result of the Iran Divestment Act of 2012 (Act), Chapter 1 of the 2012 Laws of New York, a new provision has been added to the State Finance Law (SFL), § 165-a, effective April 12, 2012. Under the Act, the Commissioner of the Office of General Services (OGS) will be developing a list (prohibited entities list) of "persons" who are engaged in "investment activities in Iran" (both are defined terms in the law). Pursuant to SFL § 165-a(3)(b), the initial list is expected to be issued no later than 120 days after the Act's effective date, at which time it will be posted on the OGS website.

By entering into this Contract, Contractor (or any assignee) certifies that once the prohibited entities list is posted on the OGS website, it will not utilize on such Contract any subcontractor that is identified on the prohibited entities list.

Additionally, Contractor agrees that after the list is posted on the OGS website, should it seek to renew or extend the Contract, it will be required to certify at the time the Contract is renewed or extended that it is not included on the prohibited entities list. Contractor also agrees that any proposed Assignee of the Contract will be required to certify that it is not on the prohibited entities list before the New York State Department of Transportation (NYSDOT) may approve a request for Assignment of Contract

During the term of the Contract, should NYSDOT receive information that a person is in violation of the above-referenced certification, NYSDOT will offer the person an opportunity to respond. If the person fails to demonstrate that it has ceased its engagement in the investment which is in violation of the Act within 90 days after the determination of such violation, then NYSDOT shall take such action as may be appropriate including, but not limited to, imposing sanctions, seeking compliance, recovering damages, or declaring the Contractor in default.

NYSDOT reserves the right to reject any request for assignment for an entity that appears on the prohibited entities list prior to the award of a contract, and to pursue a responsibility review with respect to any entity that is awarded a contract and appears on the prohibited entities list after contract award.

**A. Selection of Design Alternative(s)**

The **Consultant** will identify and make rudimentary evaluations of potential design alternative concepts that would meet the **Sponsor's** defined project objectives. These evaluations are not to be carried beyond the point of establishing the feasibility of each concept as a design alternative; only those significant environmental and geometric design constraints that bear on the feasibility should be identified.

For each concept the **Consultant** will prepare rudimentary sketches of plan, profile, and typical section views which show:

- **On plan:** proposed centerlines; pavement edges; curve radii and termini; and existing ROW limits.

---

<sup>5</sup> [https://www.dot.ny.gov/divisions/engineering/structures/repository/manuals/brman\\_4th\\_edition](https://www.dot.ny.gov/divisions/engineering/structures/repository/manuals/brman_4th_edition)

- **On profile:** theoretical grade lines; critical clearances; vertical curve data; grades; and touchdown points.
- **On typical section:** lane, median, and shoulder widths; ditches; gutters; curbs; and side slopes.

Re: Community-Wide Brownfields Assessment Grant

Commissioner Church,

The City of Newburgh would like to offer our complete support of the County's efforts to obtain an EPA Community-Wide Brownfields Assessment Grant for the area along the lower Quassaick Creek in the City of Newburgh and Town of New Windsor. The City highly values our partnership with our neighboring town and with Orange County on this larger effort to clean up the Quassaick Creek in order to provide environmental, recreational, and economic benefits to the City and its residents.

The City is committed to provide space for public meetings and to post notices in City Hall and other City facilities. The City is willing to assist, if necessary, with maps, history, and other information about city owned parcels including work done or being done which may affect other properties in the corridor; and the City will allow access to city owned parcels, if required, for assessment purposes.

The City is pleased that the EPA continues to offer our communities valuable resources to mitigate environmental justice concerns, and look forward to the potential to leverage our Making a Visible Difference status to have long lasting environmental improvements that benefit all of our communities' residents and visitors.

Sincerely,

Michael Ciaravino  
City Manager

2. For purposes of these Terms and Conditions, parcel shall be defined as a section, block and lot number.
3. All real property, including any buildings thereon, is sold "AS IS" and without any representation or warranty whatsoever as to the condition or title, and subject to: (a) any state of facts an accurate survey or personal inspection of the premises would disclose; (b) applicable zoning/land use/building regulations; (c) water and sewer assessments are the responsibility of the purchaser, whether they are received or not; (d) easements, covenants, conditions and rights-of-way of record existing at the time of the levy of the tax, the non-payment of which resulted in the tax sale in which City of Newburgh acquired title; and (e) for purposes of taxation, the purchaser shall be deemed to be the owner prior to the next applicable taxable status date after the date of sale.
4. The properties are sold subject to unpaid school taxes for the tax year of 2016-2017, and also subject to all school taxes levied subsequent to the date of the City Council resolution authorizing the sale. The purchaser shall reimburse the City for any school taxes paid by the City for the tax year 2016-2017, and subsequent levies up to the date of the closing. Upon the closing, the properties shall become subject to taxation. Water and sewer charges and sanitation fees will be paid by the City to the date of closing.
5. **WARNING: FAILURE TO COMPLY WITH THE TERMS OF THIS PARAGRAPH MAY RESULT IN YOUR LOSS OF THE PROPERTY AFTER PURCHASE.** The deed will contain provisions stating that the purchaser is required to rehabilitate any building on the property and bring it into compliance with all State, County and Local standards for occupancy within (18) months of the date of the deed. Within such eighteen (18) month time period the purchaser must either: obtain a Certificate of Occupancy for all buildings on the property; make all buildings granted a Certificate of Occupancy before the date of purchase fit for the use stated in such Certificate of Occupancy; or demolish such buildings. The deed shall require the purchaser to schedule an inspection by City officials at or before the end of the eighteen (18) month period. If the purchaser has not complied with the deed provisions regarding rehabilitation of the property and obtained a Certificate of Occupancy or Certificate of Compliance by that time, then the title to the property shall revert to the City of Newburgh. The deed shall also provide that the property shall not be conveyed to any other person before a Certificate of Occupancy or Certificate of Compliance is issued. A written request made to the City Manager for an extension of the eighteen (18) month rehabilitation period shall be accompanied by a non-refundable fee of \$250.00 per parcel for which a request is submitted. The City Manager may, in his sole discretion and for good cause shown, grant one extension of time to rehabilitate of up to, but not to exceed, three (3) months. Any additional request thereafter shall be made in writing and placed before the City Council for their consideration.

This shall be set forth as a restrictive covenant in the deed, subject upon its breach, to a right of re-entry in favor of the City of Newburgh. This shall be in addition to all other provisions, covenants and conditions set forth in the Terms of Sale.

7. Notice is hereby given that the properties are vacant and unoccupied. These parcels are being sold subject to the City's Vacant Property Ordinance and all provisions of law applicable thereto. At closing, the purchaser will be required to register the properties and remit the vacant property fee. It is the sole responsibility of the purchaser to redevelop such parcel in accordance with same.
8. All purchasers are advised to personally inspect the premises and to examine title to the premises prior to the date upon which the sale is scheduled to take place. Upon delivery of the quitclaim deed by the City of Newburgh to the successful purchaser, any and all claims with respect to title to the premises are merged in the deed and do not survive.

Property may contain paint or other similar surface coating material containing lead. Purchaser shall be responsible for the correction of such conditions when required by applicable law. Property also may contain other environmental hazards. Purchaser shall be responsible for ascertaining and investigating such conditions prior to bidding. Purchaser shall be responsible for investigating and ascertaining from the City Building Inspector's records the legal permitted use of any property prior to closing. Purchaser acknowledges receivership of the pamphlet entitled "Protecting Your Family from Lead in Your Home." The City is not required to send notice of acceptance or any other notice to a purchaser.* At closing, purchaser, as grantee, may take title as a natural person or as an entity wherein purchaser is an officer or managing member of said entity. The City Manager may, in his sole discretion and for good cause shown, grant one extension of time to close title of up to, but not to exceed, sixty (60) additional days. No request shall be entertained unless in writing, stating the reasons therefor, and unless accompanied by a fee of \$250.00 per parcel for which a request is submitted. The fee shall be in addition to all other fees and deposits and shall not be credited against the purchase price and shall not be returnable. Any additional request made thereafter shall be made in writing and placed before the City Council for their consideration.
12. In the event that a sale is cancelled by court order, judgment, the Comptroller or the Newburgh City Council, the successful bidder shall be entitled only to a refund of the purchase money paid with interest. Purchaser agrees that he shall not be entitled to special or consequential damages, attorney's fees, reimbursement for any expenses incurred as a result of ownership, improvements of property, or for taxes paid during period of ownership, and this agreement by the purchaser is a material condition of the sale.
13. Sale shall be final, absolute and without recourse once title has closed and the deed has been recorded. In no event, shall City of Newburgh be or become liable for any defects in title for any cause whatsoever, and no claim, demand or suit of any nature shall exist in favor of the purchaser, his heirs, successors or assigns, against City of Newburgh arising from this sale.
14. Conveyance shall be by quitclaim deed only, containing a description of the property as it appeared on the tax roll for the year upon which the City acquired title or as corrected up to date of deed. The deed will be recorded by the City upon payment in full of the purchase price, buyer's premium, and closing fees/costs. Possession of property is forbidden until the deed is recorded conveying title to the purchaser. **Title vests upon recording of deed.**
15. Upon closing, the City shall deliver a quitclaim deed conveying all of its right, title and interest in the subject property, which deed shall be drawn by the City Corporation Counsel. The City shall not convey its interest in any street, water, sewer or drainage easement, or any other interest the City may have in the property. The City shall only convey that interest obtained by the City pursuant to the judgment rendered in an *in rem* tax foreclosure action filed in the Orange County Clerk's Office.

16. The description of the property shall be from the City of Newburgh Tax Map reference or a survey description certified to the City of Newburgh and provided to the City Corporation Counsel by the purchaser at least ten (10) days in advance of closing title and approved by the City's Engineer.
17. Evictions, if necessary, are solely the responsibility of the successful bidder after closing and recording of the deed.

The receipt by the Landlord of Rent with knowledge of the breach of any covenant of this Lease shall not be deemed a waiver of such breach. The payment by Tenant of Rent with knowledge of the breach of any covenant of this Lease shall not be deemed a waiver of such breach. without prejudice to the Landlord's right to recover the balance of such rent or pursue any other remedy in this Lease, except as may be expressly provided herein. This Lease contains the entire agreement between the parties, and any executory agreement hereafter made shall be ineffective to change, modify, discharge or effect an abandonment of it in whole or in part unless such executory agreement is in writing and signed by the party against whom endorsement of the change, modification, discharge or abandonment is sought.

## 22. INDEMNITY

22.1 Indemnity: To the fullest extent permitted by law, each party hereto (an "Indemnifying Party") shall indemnify the other party and the other party's principals, agents, affiliates and subsidiaries, as well as their officers, directors, affiliates, employees, agents, attorneys, legal representatives, and their respective successors and assigns (referred to individually as an "Indemnified Party" and collectively as "Indemnified Parties") from and against any claims for death, personal injury or property damage arising out of the act, omissions or negligence of the indemnifying party in accordance with the policies and practices of insurance of the parties. The Landlord's policy of insurance is attached hereto. This indemnification shall include all costs, expenses and liabilities incurred in connection with any claim covered by this Section 22, including but not limited to, reasonable

attorney's fees (to and through appellate proceedings). This provision shall survive the termination of this Lease.

22.2 Limitation of Liability. The Indemnified Parties shall not be liable for (a) any damage to property of the one or of others entrusted to the Indemnifying Party or its employees or for the loss of or damage to any property by theft; (b) any injury or damage to persons or property resulting from fire, explosion, or from any other cause of whatever nature, unless caused by or due to the negligence or intentionally tortious acts of any of the indemnified Parties; nor shall any of the Indemnified Parties be liable for any such damage caused by the Indemnified Parties or third persons on the Premises; (c) notwithstanding whether the injury or damage is caused by any act or failure to act of any of the Indemnified Parties, any injury or damage for which an Indemnified Party would have been reimbursed under policies of insurance required by the terms of this Lease to be maintained (i) had the indemnifying party not failed to procure or maintain such policies of insurance or (ii) had the indemnifying party not failed to procure or maintain such policies of insurance with at least the limits herein specified; or (d) injury to or interruption of the party's business by reason of any of the foregoing events. If either party has supplied the other with liability insurance, and if an action or proceeding against an Indemnified Party is within the scope of coverage of such policy, the Indemnified Party shall look solely to such policy and the Indemnifying Party shall have no obligation to defend, protect, indemnify or hold harmless the other even if the amount of such policy is exceeded. In no event shall any of the individuals who are the employees, officers, and/or directors of Landlord or Tenant be personally liable for any cause of action arising hereunder. It is the understanding of the parties hereto that each and both of them will be fully insured and indemnified by the involved State agencies and/or by the private operator.

## 23. TITLE TO IMPROVEMENTS

The Landlord's Improvements upon the Premises shall belong solely and absolutely to the Landlord. Title to any other improvements (including without limitation security gates, parking revenue devices, and the like) to be installed by or on behalf of the Project shall remain with the Landlord, except as may be provided in other agreements with involved State agencies or other private parties, and except as provided for herein.

## 24. SERVICES

It is the understanding of the parties that it shall be the responsibility of the Ferry operator and/or the involved State agencies to re-strip and re-seal the Premises as part and parcel of necessary on-going maintenance of the Premises. It is the understanding of the parties hereto that during the life of this Lease, the operator of the Ferry shall be responsible for normal care and cleaning and security of said bathrooms during ferry operations, as may be further provided in written agreements by and between the parties and/or other involved parties.

## 25. LIABILITY INSURANCE

25.1 The Landlord's Insurance: The Landlord, at its expense, shall maintain such property insurance, casualty insurance, loss of rental insurance, workers compensation and employers liability insurance (unless the Landlord has no employees at the Premises), as a prudent owner of such riparian property as the Premises in the City of Newburgh, County of Orange, would carry. 25.2 Underwriters: Each insurance policy required under this Article 25 shall be written by an insurance company authorized to do business in the State of New York, including New York "non-admitted carriers" having a Best & Company, Inc. rating of "A" or higher and a financial size category of not less than VII. Each of the parties hereto shall carry such insurance as the State and other involved entities and parties shall require.

## 27. CONDEMNATION

Condemnation: The condemnation of but a part of the Premises by competent authority shall not affect the provisions of this Lease except for a proportional abatement of rent hereunder, but if the condemnation of the whole of the Premises or of any part which materially interferes with the conduct of the operation of the ferry and/or Tenant's business thereon shall occur, then the term of this Lease shall thereupon expire, the Tenant shall quit the Premises, leaving them and the structures thereon in their then condition as set forth in Section 19.1 and other provisions hereof, and any subsequent award for such taking shall be apportioned between the Landlord for its fee interest and the Tenant for its leasehold interest and value of the Tenant-constructed improvements thereon.

## 28. OPERATION OF THE PROJECT

It is the understanding of the parties that the Ferry operator and/or its contractor shall be obligated to keep the premises clean and free and clear of refuse, snow, ice and any obstructions to the free and safe use thereof during ferry operations. The Tenant shall take reasonable precautions to prevent nuisances, disorders and breaches of the peace. The Landlord and Tenant shall comply with all of the rules and regulations of the involved State agencies and of reasonable amendments thereto provided that the Landlord and Tenant have received prior written notice and that such rules and regulations are applied uniformly to Landlord and any other tenant at the Property.

28.2 Waste Removal: The Tenant and Landlord shall mutually furnish and maintain receptacles sufficient to contain each party's own and ferry customers' rubbish, waste and litter. It is the understanding of the parties that during ferry operations, Metro-North Commuter Railroad and/or the Ferry operator and/or its contractor shall be solely responsible for the regular removal of all trash, rubbish, waste and litter from the Premises.

28.3 No Damage or Defacement: The Tenant covenants and agrees that its representatives and employees will not deface or damage any property of the Landlord. The parties shall expend reasonable efforts to keep and maintain the Premises free from defacement and graffiti at all times.

28.4 Advertising and Signs: Tenant and the involved State agencies shall have the right to install or erect such signs as they deem necessary or appropriate in or on the Premises. The specifications and design of any exterior signs shall be subject to the prior written approval of Landlord, which approval shall not be unreasonably withheld, conditioned, or delayed.

28.5.1 Risk of Loss: The Landlord assumes all risk of loss or damage to the fixtures, equipment, currency and property of every nature and description, brought, placed or kept by the Landlord at the Premises, whether such loss or damage is due to fire, burglary, theft, vandalism, riot, or any other cause. In no event shall the Tenant be liable to the Landlord on account of damage to or loss of any such property, except where such loss arises from Tenant's negligence or misconduct.

28.5.2 It is the parties mutual understanding that they and each of them shall be named as an additional insured and indemnitee of the Ferry operator, New York State Department of Transportation and Metro-North Commuter Railroad in the event of any and all claims, proceedings, actions and/or damages resulting from the negligence, acts or omissions of such other entities, as provided in Section 22 hereof.

28.6 Publicity: The Landlord shall not make any public statement or issue any publicity with respect to this Lease without the prior written approval of Tenant and the involved State agencies, which may be granted or denied in the Tenant's and/or State agencies' sole discretion. The Landlord may not use, and shall not place, or allow to be placed, the name or logo or any intellectual property of Tenant or any of the other Tenant's indemnities or any governmental or quasi-governmental authority or affiliates of any of the foregoing entities or persons in any advertisement, publication, disclosure statement, private placement memorandum or similar document without first affording Tenant reasonable opportunity to review such document and obtaining the Tenant's prior written consent to the printing and dissemination of such document, which consent may be granted or denied in the Tenant's sole discretion, except that Tenant shall not unreasonably withhold consent to a request by Landlord to publicize the Project in connection with the further development of the Project. Any request for Tenant's consent must include a copy of the proposed materials.

28.7 Other obligations: the parties acknowledge that the Tenant has separate agreements with the New York State Department of Transportation and/or Metro-North Commuter Railroad regarding the provision of ferry service and parking. The parties to this Lease will cooperate with each other to enable the City to fulfill its obligations under said agreements.

## 29. HAZARDOUS MATERIALS

29.1 Hazardous Materials. The Landlord shall not cause, permit or suffer any Hazardous Materials (as hereinafter defined) to be used, stored, generated or disposed of above actionable levels on or in the Premises, except for those Hazardous Materials used in the normal course of vehicle parking and ferry docking operations. If the Landlord causes, suffers, or permits contamination by Hazardous Materials above actionable levels at the Premises during the Tenant's use of the Premises, the Landlord shall indemnify and defend the Tenant and the other Indemnitees against, and hold the Tenant and the other Indemnitees harmless from any and all claims, damages, fines, judgments, penalties, costs, liabilities, or losses (including, without limitation, any and all sums paid for settlement of claims and for reasonable attorneys', consultant, and expert fees) arising during or after the term of this Lease by reason of such contamination. This indemnification includes, without limitation, any and all costs incurred because of any investigation of the Premises which is required by Environmental Laws (as hereinafter defined) or any cleanup, removal or restoration required by a federal, state or local agency including, without limitation, any such costs associated with the contamination above actionable levels of adjacent property or ground water. In addition, if the Landlord causes, suffers or permits the contamination of the Premises by Hazardous Materials above actionable levels, the Landlord shall promptly, at its sole expense, take any and all actions required by Environmental Laws to Remediate (as hereinafter defined) the Premises. However, Landlord shall not be responsible for any contamination which results from the actions, negligence and/or neglect of the Tenant and/or its sub-tenants and invitees.

29.2 Landlord's Representations: The Landlord represents and warrants to the Tenant that now and throughout the Term and Renewal Term, if any: (i) the Premises are in compliance with applicable Environmental Laws; (ii) the Premises are not subject to any Environmental Actions (as hereinafter defined); and (iii) neither the Premises nor any personal property located thereon are subject to any Environmental Liens (as hereinafter defined). The Landlord shall remediate the Premises to the satisfaction of the New York State Department of Environmental Conservation and any federal, state or local governmental agencies with regulatory or enforcement authority for environmental conditions at the Premises, and shall provide Tenant with written notification from the New York State Department of Environmental Conservation, or such other governmental entities, to this effect. Landlord will (i) employ such construction techniques, procedures, and other measures to assure the health and safety of all persons during any excavation, demolition, and construction activities it may perform at the Premises; (ii) undertake and

complete any and all environmental investigations and remedial actions as may be required under statutes, rules, regulations and common law existing during the period of time of such work to ensure that upon completion of the work the condition of the Premises is appropriate for the public uses and other purposes to which it will be put; and (iii) remove and dispose of any extraneous tanks, pipes, and appurtenances. Any limitations set forth in this paragraph regarding "existing" statutes, rules, regulations and common law shall not limit Landlord's indemnification obligations contained in this Lease. Landlord hereby, for itself and its legal representatives, successors and assigns (the "Releasing Parties") completely and unconditionally waives, releases, remises, requites and forever discharges Tenant and its legal representatives, successor and assigns (the "Released Parties") from any and all actions or proceedings, cost, expense and liability of every kind whatsoever (including, without limitation, fees, costs, and disbursements of experts, consultants, and attorneys) whether known or unknown, suspected or unsuspected, of any kind or nature whatsoever which any of the Releasing Parties ever had, now has, or may, shall or can hereafter have or acquire, arising out of, or in any way connected with (i) the presence, suspected present, release or threatened release of Hazardous Materials, in, on, under, above or about the Premises during the Term and Renewal Term, if any; (ii) the effect of any Environmental laws with respect to the Premises or any activity conducted thereon during the Term and Renewal Term, if any; (iii) any Environmental Claim (as hereinafter defined), any environmental clean-up liability, any environmental compliance cost, and any defect, latent or patent arising in connection with the condition of the Property during the Term and Renewal Term, if any.

### 29.3 Environmental Indemnification by Landlord.

29.3.1 The Landlord hereby agrees to defend, indemnify and hold harmless Tenant and the other Tenant's Indemnitees from and against, any Environmental Claim, and any Environmental Liabilities and Costs (as hereinafter defined) arising out of: (i) any Releases (as hereinafter defined) of Hazardous Materials above actionable levels that occurred prior to or on account of conditions existing at, on, under or about the Property at any time and at, on, conditions existing under or about the Premises during the Term and Renewal Term, if any; (ii) any violations of Environmental Laws or Environmental Actions that are attributable to the Landlord's acts or omissions (or those of any affiliate of the Landlord, or any prior occupant or predecessor-in-interest or servant, employee or agent of the Landlord) or on account of conditions existing at, on, under, or about the Property at any time, and conditions existing at, under, or about the Premises during the Term and Renewal Term, if any; (iii) any breach of any warranty or representation or covenant regarding environmental matters made by the Landlord; and (iv) any Releases or threatened Releases of Hazardous Materials caused by the Landlord or any affiliate of the Landlord (or any prior occupant, predecessor-in-interest or servant, employee or agent of the Landlord) or on account of conditions at the Property at any time, and on account of conditions at, under, on, and about the Premises prior to and during the Term. This indemnification shall survive the expiration or earlier termination of this Lease.

29.3.2 Upon discovery of any Hazardous Materials at the Premises (which, for purposes of this Section, includes, but is not limited to the air, surface water, or ground water, or riparian areas of the Premises) which does not arise out of the acts or omissions of the Tenant, its employees, agents or contractors, or invitees at the Property where such condition may reasonably be anticipated to affect the Premises, the Tenant shall have the following options:

- A. Upon thirty (30) days written notice to the Landlord, the Tenant may terminate this Lease without penalty of any kind and be released from any liability under this Lease as of the termination date and receive a full refund of all payments of the additional rent paid for the amortization of Construction Costs hereunder; provided, however, nothing contained herein is intended to limit the Tenant's rights or remedies against the Landlord for damages incurred by the Tenant as a result of the termination of this Lease; or
- B. The Tenant may require the Landlord, at the Landlord's sole cost and expense, to diligently and in good faith promptly perform all work necessary to investigate and/or Remediate any Hazardous Materials above actionable levels in, on or about the Premises, such work being performed in conformity and compliance with all Environmental Laws; or
- C. The Tenant may, at the sole cost and expense of the Landlord, perform all work necessary to investigate and/or Remediate any Hazardous Materials above actionable levels in, on or about the Premises, in which case the Landlord shall reimburse the Tenant promptly for all costs and expenses incurred by the Tenant including, without limitation, reasonable professional fees, upon demand accompanied by written evidence of such costs and expenses reasonably satisfactory to the Landlord. This Paragraph (C) shall only be available to Tenant if Landlord, after reasonable notice, has failed to undertake the remedy provided in Paragraph (B) herein.

Notwithstanding the Tenant's election to exercise its rights under subsection (B) or (C) above, the Tenant may, at any time, exercise its right to terminate this Lease as provided for in subsection (A) above or elsewhere in this Lease prior to the completion of the Remediation. If the Tenant's use of the Premises is rendered substantially or totally impaired by the presence of Hazardous Materials above actionable levels not caused by the Tenant, its agents, employees or contractors, the Rent and other charges due under this Lease shall abate until such time as the Tenant is able in its judgment to resume uninterrupted operation of the Project at the Premises.

## SST Introduction and Background

### About SST, Inc.

SST was founded in 1995 and with 33 issued patents, and over 90+ successful agency engagements covering over 300 square miles, SST has become the de-facto leader in the development and deployment of wide area acoustic gunshot surveillance systems. Our sensor-based technology detects, locates and alerts on all outdoor urban gunfire on a real time and precise basis. These alerts are then vetted by an acoustic reviewer in our 24/7 Incident Review Center before getting pushed to a customer web accessible laptop or mobile device. The alerts will show a precise dot on a map with the real recording of the actual gunfire event. The situational intelligence advantage and ground truth that our alerts bring to a tactical response provides for enhanced officer safety. At an agency level, it provides for an efficient and effective way to respond to and investigate gun crime.

Our service is delivered as an easily implemented Software as a Service (SaaS) solution requiring no investment in or maintenance of expensive hardware or software. Our contracts are based on an affordable one year subscription agreement providing for maximum flexibility and the de-risking of a ShotSpotter deployment.

### Our Core Beliefs

Our inspiration comes from our Principal Founder, Dr. Bob Showen's core belief that technology in its highest and best use should be harnessed for social good. The collective passion of our employees, investors and partners is based on providing a compelling solution and consulting expertise focused on helping reduce gun violence and creating safer more vibrant communities coping with the epidemic of gun violence. We are committed to developing comprehensive, respectful and intimate partnerships with agencies and their respective cities organized around making a positive difference. Today, ShotSpotter is highly regarded as a critical component of a comprehensive gun violence reduction strategy and is playing an active part in making communities safer for our future generations. We aspire to make that both our individual and firm wide legacy.

## Our Experience

Our company has had over 20 years of successful experience in designing and deploying ShotSpotter arrays in a number of diverse urban environments with various acoustic and environmental challenges. We have the largest database of gunfire events and other impulsive noise detections on the planet allowing us to continually refine and improve our machine classification techniques. Our data is scientifically sound and used in court cases at both the state and federal levels.

Most importantly, we have over the years, been able to learn alongside our clients, a number of best practices techniques to improve on measurable outcomes and the operational effectiveness of our solution. We take a consultative approach to our client engagements and bring to bear a formal onboarding process and provide comprehensive training and ongoing webinars to advance the state of gun violence abatement.

## Our Service and Product Offerings

SST is well known and respected for its gunshot detection solutions that have historically helped police identify, analyze and respond to violent gun crime in urban cities. The ShotSpotter product continues to become a household name in law enforcement agencies across the world. Today, the company has expanded its solution offering to include small area and indoor gunshot detection. This new security solution is focused on K-12 schools, college and university campuses, corporate facilities and other key critical infrastructure that are vulnerable to unpredictable active shooter attacks.

An overview of our suite of services include the following:

- **ShotSpotter® Flex™** – gunfire alerting and analysis of gunfire for local law enforcement agencies in urban areas.
- **ShotSpotter® SiteSecure™** for Critical Infrastructure – physical security designed to detect gunfire attacks on commercial and federal buildings, electrical substations, airports, and large outdoor structures.
- **SST SecureCampus®** – designed to provide indoor and outdoor gunfire coverage at university and school campuses.

## About Our Service – ShotSpotter Flex

### Real Time Gunfire Data

**ShotSpotter Flex** helps law enforcement agencies by directing police to the precise location of illegal gunfire incidents. ShotSpotter instantly notifies officers of shootings in progress with real-time data delivered to dispatch centers, patrol cars and even smart phones. Instant alerts enable first responders to aid victims, collect evidence and quickly apprehend armed, dangerous offenders.

ShotSpotter's actionable intelligence can then be used to prevent future crimes by positioning law enforcement when and where crime is likely to occur. Police now possess a scientific barometer of success: smart policing leads to fewer shootings.

Key Features	Key Benefits
• Constant, 360-degree wide-area acoustic surveillance throughout large coverage areas.	• Enhanced situational awareness and officer safety.
• Immediate alerts when no one calls 9-1-1.	• Faster evidence collection and witness identification.
• Precise location including latitude/longitude, street address.	• Court-admissible, detailed forensic reports (DFRs).
• Number and exact time of rounds fired.	• Increased gun crime arrests.
• Identification of fully-automatic or high-capacity weapons.	• Improved community relations and collaboration.
• Identification of multiple shooters.	• Proactive gun crime pattern analysis and strategic deterrence.
• Shooter position, speed and direction of travel.	• No need to buy/manage a complex technology infrastructure.
• Detailed forensic data for investigation, prosecution, analysis.	• Expedited response to shooting victims.
• Easily-accessible single and cumulative historical reports.	• Increased suspect leads, suspect arrests.
• Annual subscription-based service is a hosted cloud-based solution.	• Increased ability to identify homicides and injured victims.

## Sensor Platform

Our detection solution is enabled through proprietary special purpose-built sensors that are designed to trigger and time-stamp impulsive acoustic events that spike above ambient noise. When three or more sensors “trigger” the software system is able to triangulate the exact location of the event within 82 feet.

SST designs and deploys a sensor array of typically 15-20 sensors per square mile in order to support a coverage area. Although the company may seek assistance from the city/agency for permissions to mount the sensors, the ownership and maintenance of the sensors is the sole responsibility of SST.

## Subscription-based and Software as a Service

### **SST’s cloud-based system is cost effective.**

In addition to owning and operating the underlying sensor network, SST also owns and operates the data center infrastructure which provides the 24x7x365 real-time data. Sensors operate on "machine-to-machine" (M2M) data contracts provided by our cellular provider partners. Because SST maintains thousands of live sensor connections with those partners, we achieve per-sensor connectivity savings far beyond what a single agency could negotiate, and we pass those savings along to our customers in the form of a fixed price subscription.

### **Built-in redundancy eliminates any single point of failure.**

SST operates fully redundant data centers on both the East and West Coasts, both of which have doubly-redundant power and HVAC, and triply-redundant Internet connectivity. The company has invested in full data redundancy and backups, as well as offsite backup, and provides a level of 24x7x365 fault tolerant hardware and network uptime that no agency—even the biggest—could afford to procure, let alone maintain, on its own.

### **Subscription Based**

The subscription-based cost structure of ShotSpotter Flex not only makes sophisticated gunshot detection a reality for your agency, it helps you maximize your people by speeding investigations, supporting prosecutions and deploying

patrol officers where and when they're needed most to successfully prevent gun violence.

Annual terms provide the maximum flexibility and reduction of risks as an agency can opt out after the one year term (although we trust our service will provide positive outcomes that you will want to continue to receive).

### **Incident Review Center**

Our 24x7x365 commitment coupled with unparalleled acoustic expertise provides an instant assessment of all incidents, freeing up time that dispatchers and officers would otherwise spend analyzing alerts. We provide the level of data qualification needed to have confidence when dispatching based on alerts. Drawing on their experience, SST experts add critical situational intelligence to alerts, that can help personnel respond more safely and successfully.

After an explosive (or impulsive) sound triggers ShotSpotter sensors that an incident is detected and located, audio from the incident is sent to the SST Incident Review Center via secure, high-speed network connections for real-time qualification. Within seconds, an SST professional reviewer analyzes audio data and recordings to confirm gunfire. The qualified alert is then sent directly to the dispatch center, PSAP, mobile/patrol officers and any other relevant safety or security personnel.

SST's team of expert reviewers has direct experience reviewing thousands of incidents captured by SST systems. Reviewed alerts help law enforcement respond safely and effectively to gunfire by providing:

- Precise location of gunfire, both latitude/longitude and street address.
- Number and exact time of shots fired.
- Shooter position, speed and direction of travel (if moving).
- Faster, more accurate alerts.
- Gunfire incident history and pattern analysis.

SST's incident reviewers hear thousands of gunfire incidents during their training, and each incident is presented to them from the perspective of multiple sensors. SST incident reviewers have reviewed and analyzed more acoustic gunfire incidents, from more perspectives, than quite literally anyone else in the world.

SST's Real-Time Incident Review Center operates 24 hours a day, 365 days a year in a protected and fully redundant environment. Our software provides live chat functionality for immediate communication and assistance when required.

## **Best Practices and Onboarding Training**

### **The SST Training Team**

The Training Team consists of former law enforcement professionals with over 40 years of experience. Our mission is to make the customer as successful as possible. We do this through continued and on-going support to help you learn how to get the most benefit from the services we offer. All the training modules we offer are included in the price of the service, so never hesitate to request training if your agency is in need.

### **Getting Started**

Early in the engagement process, one of our trainers will be assigned to the agency to ensure wide-ranging but consistent training is delivered based on the agency customer's need. While the service is being deployed, we first present to command staff personnel and key identified stakeholders in the service. This Best Practices Presentation is based on knowledge of law enforcement practices and learning from our customer agencies that have been successful with incorporating ShotSpotter services into the fabric of the department. The idea is to get the agency thinking about success and ways to achieve it right from the beginning.

### **Educational and Best Practices Webinars**

To help support you in your deployment process, SST has a number of training webinars to help you get your team trained internally on how to use our products and services. We also offer a series of archived best practices webinars on a variety of law enforcement topics from reducing celebratory gunfire to keeping neighborhoods safer. These webinars are led by our internal SST experts, many of whom have an extensive background in both public safety and business.

## Gunfire Data and Alerts

The alerts that are generated by ShotSpotter are delivered in the following forms:

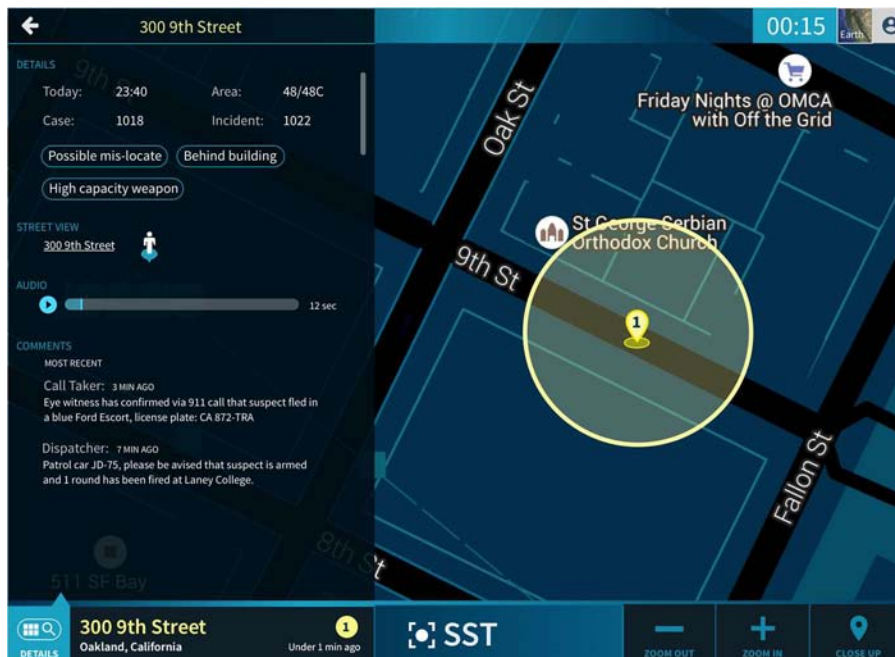

### i. Alerts Console

The ShotSpotter Flex Alerts Console is the user interface most often used by Call Takers, Dispatchers, and Patrol Officers in the field. Real-time notifications of gunfire incidents are delivered to this console.

The console provides the type of gunfire (single round, multiple round), a unique identification number (Flex ID number), a date and time of the muzzle blast (trigger time), latitude-longitude of the location of the muzzle blast, nearest address of the location of the muzzle blast, number of shots, direction of travel (moving shooter, multiple rounds), speed of travel (moving shooter, multiple rounds), district identification, and beat identification.

An SST analyst may add other contextual information related to the event such as the possibility of multiple shooters, high capacity weapons, full-automatic weapons, and the shooter's location related to a building (front yard, back yard, street, etc.). An audit trail of the time the alert was published, acknowledged and closed at customer facility is also contained in the report. All notes by Call Takers

and Dispatchers are added to the alert are time and date stamped and indicate the operator's identification. For Patrol Officers, an audio clip of the incident is provided with the alert.

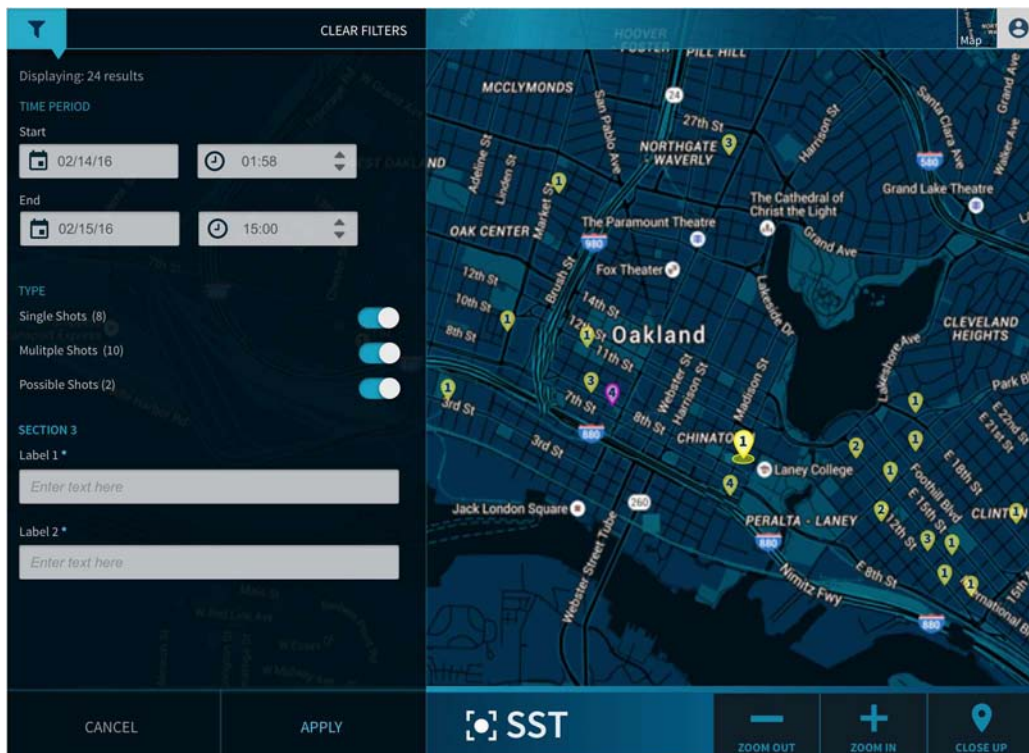

## ii. Investigator Portal

All historical incident data in the ShotSpotter Flex database can be viewed, searched, sorted, and filtered using the ShotSpotter Investigator Portal. Reports for single incidents and groups of incidents can be run. Parameters and filter settings may be used to select incidents grouped into a single report. Any predefined reports may be viewed on a monitor, printed, or exported to standard CSV format.

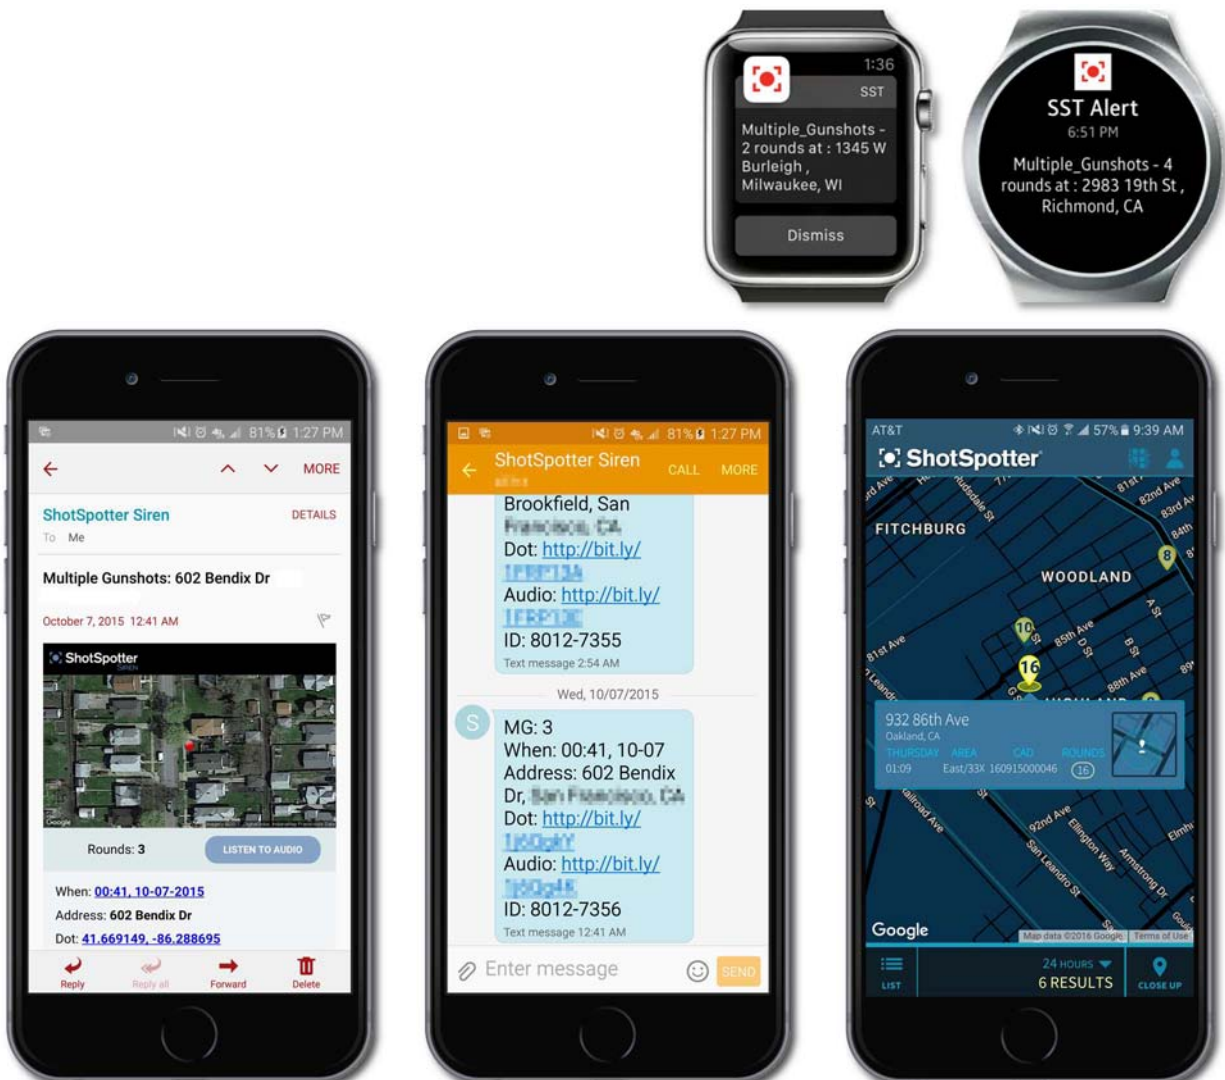

End-users can create their own custom reports or otherwise analyze the data using standard COTS products such as Microsoft SQL Server Report Builder, Crystal Reports, ArcGIS including Spatial Analyst, and any other SQL tools or SQL Server compatible tools. Because the system stores all incident details into an SQL database, generating reports is relatively simple.

The Investigator Portal also includes the ability to save any audio clip as a standard MP3 file to any recordable media (e.g., CDROM, USB drive).

### iii. Mobile Alerts

Real-time gunfire alert data may also be delivered to smartphones and smart watches through email, SMS text messages, or a native smartphone application, available for use on iPhones and Android platforms. The location of gunfire is represented as a dot on a map in addition to the number of rounds fired, including access to the incident audio.

#### **iv. Notification Engine (machine based)**

The ShotSpotter Notification Engine Interface permits client applications such as video management systems, Computer-Aided Dispatch (CAD), Records Management Systems (RMS), video analytics, automated license plate number readers (ALPR), camera management systems, crime analysis and statistics packages (including COMPSTAT software), and common operating picture (COP) software to receive accurate, timely, and detailed information about ShotSpotter gunfire alerts, including precise latitude and longitude (geolocation), GPS-synchronized timestamps, incident audio, and situational context provided by the 24x7x365 SST Incident Review Center.

Integration of ShotSpotter data with other systems has already proven successful in cities across the United States. Police in Minneapolis, MN used an earlier version of the ShotSpotter Notification Engine to trigger video recordings of certain key intersections in high crime areas. Soon thereafter, a ShotSpotter alert triggered those cameras to capture the image of a murderer fleeing the scene of a shooting. Similarly, in Boston, MA, police correlate ShotSpotter data with surveillance cameras and parolee ankle bracelet tracking data to maintain 24x7x365 awareness of any parolee who may be violating the terms of parole by committing crimes or consorting with those doing likewise.

In 11 states and in the District of Columbia, ShotSpotter evidence and SST expert witness testimony have been successfully admitted in over 50 court cases. In four of those states (CA,NY,MO,NE), ShotSpotter scientific technique was subject to Kelly (Frye) or Daubert challenges and was found to be admissible.

In such circumstances SST will use commercially reasonable efforts to obtain alternate wired or wireless cellular communications or adjust the coverage area as necessary. In the event SST is unable to do so, SST will terminate the Service and refund a pro-rata portion of the annual Service fee to Customer.

Subject to the terms and conditions hereof, SST agrees to defend and indemnify Customer (provided it is the actual End-user Customer of the Service) from and against losses, suits, damages, liability and expenses (including reasonable attorney fees) arising out of a claim asserted in a lawsuit or action against the end-user customer by a third party unrelated to the customer, in which

such third party asserts a claim that the Service and/or Software, when used in accordance with SST's specifications and for the purposes intended, infringes any United States patent which was issued by the U.S. Patent and Trademark Office, or United States copyright which was registered by the U.S. Copyright Office, as of the effective date of Customer's agreement to purchase the ShotSpotter Flex System.

**Provided, however,** that SST shall have the right to choose counsel to defend such suit and/or action, and to control the settlement (including determining the terms and conditions of settlement) and the defense thereof, and that Customer shall provide SST with reasonably prompt written notice of any such suit or action, and of any oral, written or other communication or other information or circumstances of which Customer becomes aware that could reasonably be expected to lead to such a suit or action (including any and all cease and desist demands or warnings, and offers or invitations to enter license agreements), and shall provide SST all reasonable assistance and information in connection with SST's investigation and defense of any claim of infringement.

**Further provided, however,** that this section shall not apply and SST shall have no obligation to defend and indemnify Customer in the event the Customer or a reseller, integrator, service provider or supplier modifies, alters, substitutes, or supplements any of the Service, or Software, or to the extent that the claim of infringement arises from or relates to the integration, bundling, merger or combination of any of the same with other

hardware, software, systems, technologies, or components, functions, capabilities or applications not licensed by SST as part of the Service, nor shall it apply to the extent that the claim of infringement arises from or relates to meeting or conforming to any instruction, design, direction or specification furnished by the Customer, nor to the extent that the Service or Software are used for or in connection with any purpose, application or function other than detecting and locating gunshots exclusively through acoustic means.

If, in SST's opinion, the Service, or Software may, or is likely to become, the subject of such a suit or action, does become the subject of a claim asserted against a customer in a lawsuit which SST is or may be obliged to defend under this section, or is determined to infringe the foregoing patents or copyrights of another in a final, non-appealable judgment subject to SST's obligations under this section, then SST may in full and final satisfaction of any and all of its obligations under this section, at its option: (1) procure for Customer the right to continue using the affected Service or Software, (2) modify or replace such Service or Software to make it or them non-infringing, or (3) refund to the purchaser a pro-rata portion of the annual Service price paid for the Service System.

**The foregoing section states the entire liability of SST and customer's and its suppliers' exclusive remedy for or relating to infringement or claims or allegations of infringement of any patent, copyright, or other intellectual property rights in or to the system, system components, and software. This section is in lieu of and**

**replaces any other expressed, implied or statutory warranty against infringement of any and all intellectual property rights.**

The Customer hereby expressly assumes all risks and liability associated with any and all action, reaction, response, and dispatch decisions, and for all consequences and outcomes arising from or caused by any decisions made or not made by the Customer in reliance, in whole or in part, on any Services provided by SST, including any death, injury, or loss or damage to any property.

Any and all warranties, express or implied, of fitness for high risk purposes requiring fail-safe performance are hereby expressly disclaimed.

You and we each acknowledge and agree that the Service is not a consumer good, and is not intended for sale to or use by or for personal, family or household use.

### **D. SEVERABILITY AND INTERPRETATION.**

If any provision, in whole or in part, of this Agreement and/or the Purchase Documents of which it is a part is held invalid or unenforceable for any reason, the invalidity shall not affect the validity of the remaining provisions, and there shall be substituted for the invalid provision a valid provision which most closely approximates the intent and economic effect of the invalid provision. No part or provision shall be interpreted in favor or against any party because such party or its counsel drafted

the relevant provision. No course of dealing, usage, custom of trade, or communication between the parties shall modify or alter any of the rights or obligations of the parties under this Agreement and Purchase Document(s).

#### **E. INTEGRATION, AMENDMENT AND WAIVER.**

This Agreement, and the Purchase Document(s) of which it is a part, together with any other exhibits or appendices thereto, constitute the entire understanding between SST and you. No other documents or representations shall be used in interpreting it. Any and all written or oral agreements heretofore existing between the parties are expressly cancelled and/or superseded. Any other document, proposal, specification, statement of work, marketing collateral, or representation which may vary, alter, amend or supplement these terms and conditions will not be binding unless agreed to in a writing signed by appropriate representatives of both SST and Customer. No modification, variance, amendment or waiver of any part of Agreement or Purchase Document(s) shall be binding upon either party, whether written, oral, or in any other medium, unless made in writing and signed by authorized representatives of both parties. All the parties' rights and duties are material and time is of the essence; no waiver of any rights hereunder shall be deemed effective unless in writing executed by the waiving party; no waiver of either party's breach of any provision of this Agreement or Purchase Documents shall constitute a waiver of any prior or subsequent breach of the same or any other provision, and no failure to exercise, and no delay

in exercising, any right(s) hereunder on either party's part shall operate as a waiver of any such right; all of the parties' rights are cumulative; and, no single or partial exercise of any right hereunder shall preclude further exercise of such right or any other right.

#### **F. BENEFIT AND BURDEN; ASSIGNMENT.**

Subject to the following provisions, this Agreement and the Purchase Documents of which they are a part shall be binding upon permitted successors and assigns and shall inure to the benefit of the parties and their respective permitted successors and assigns only. Notwithstanding that the Service and Software, and its output data may be used for law enforcement, military, public safety, and force protection purposes, there are no third party beneficiaries intended to benefit from these general terms and conditions of sale, or the agreement or order of which they are a part. Customer may not assign or transfer this Agreement and the Purchase Documents of which they are a part, or any of the rights granted therein, in whole or in part, by operation of law or otherwise, without SST's express prior written consent. SST may assign or transfer this Agreement and the Purchase Documents and/or SST's rights and obligations hereunder, in whole or in part, to any third party without the necessity of obtaining Customer's consent. No assignee for the benefit of Customer's creditors, custodian, receiver, trustee in bankruptcy, debtor in possession, sheriff or any other officer of a court, or other person charged with taking custody of Customer's assets or business, shall have any right to continue or to

assume or to assign these without SST's express consent.

#### **G. GOVERNING LAW AND DISPUTE RESOLUTION.**

The validity, performance, and construction of this agreement shall be governed by the laws of the laws of the State of California, without giving effect to the conflict of law principles thereof. The United Nations Convention on Contracts for the International Sale of Goods is expressly disclaimed and shall not apply. If the parties disagree as to any matter arising under this Agreement or the relationship and dealings of the parties hereto, then SST and Customer shall promptly consult with one another and make diligent, good faith efforts to resolve the disagreement, by negotiation. Should the dispute not be resolved within a reasonable time after commencement of such negotiations, it shall be mediated before one or more mediators mutually acceptable to both parties. Costs of mediation will be allocated as part of the resolution in mediation, but absent such resolution, shall be paid equally by the parties. If such effort is unsuccessful, any controversy or claim arising out of or relating to this Agreement or the validity or breach of any of the provisions thereof, or the relationship, dealings, rights, and obligations of the parties, or use of the Service, shall be settled by binding arbitration, before three arbitrators, in or as near as possible to Newark, California, United States of America, or in such other location as the parties may agree, in accordance with the Commercial Rules of the American Arbitration Association in effect on the date of this agreement.

Such arbitration shall be conducted before three arbitrators. The parties acknowledge and agree that this agreement involves a commercial transaction in commerce and that arbitration and award hereunder shall be governed by the federal Arbitration Act. Judgment upon the award rendered by the arbitrator(s) may be entered in any court having jurisdiction thereof. In addition to any other remedies to which it may be entitled, the prevailing party shall be entitled to recover its reasonable attorneys' fees and costs (including expert witness fees and costs) incurred in connection with enforcing its rights or defending itself.

**All parties hereby irrevocably waive any and all rights they may have to a trial by jury in any judicial proceeding involving any claim relating to or arising under this agreement or any other agreement between the parties hereto.**

### EXHIBIT A – Reviewed Alert Service Levels

The ShotSpotter Flex System detects loud impulsive incidents, classifies them as gunfire, fireworks, or other, and sends them to the SST Incident Review Center. Within 15 seconds of receiving the incident audio download, SST review personnel will begin analysis of the incident, which will include observing sensor audio wave files and listening to sensor audio. The outcome of this review is intended to confirm or change the System's classification of the incident type, and, depending on the reviewer's confidence level that the incident is or may be gunfire, will result in an alert ("Reviewed Alert") sent to the Customer's **Alert Console**, based on the following criteria:

Incident Type	Action
High confidence incident is gunfire	Reviewed Gunfire Alert sent to Customer Alert Console
Uncertain if incident is gunfire or not	Reviewed Possible Gunfire Alert sent to Customer Alert Console
Low confidence incident is gunfire	<b>No alert will be sent</b> ; incident available for customer review in the incident history available through the Customer Alert Console

Reviewed Alerts are sent to the Customer Alert Console. Information in a Reviewed Alert will include the location of the incident, the reviewer's qualitative assessment of the confidence level that the incident is or may be gunfire, along with other pertinent information and data.

Specifically, information provided in a Reviewed Alert may include any or all of the following:

- "Dot on the map" and closest parcel address denoting the location of the incident
- Qualitative Confidence that the incident is gunfire: High or Uncertain
- Qualitative Severity: Single shot, multiple shots, drive by shooting, full automatic
- Comments (if any)

The majority of incidents will be processed within 45 seconds of the System notifying the SST Incident Review Center of an incident and 90% of the incidents will be processed in less than 60 seconds. In the unlikely event that the review center loses connection to the hosting facility or the review center is unable

to process the incident within approximately 60 seconds for some reason, the system will automatically route unreviewed incidents directly to the customer based on the systems classification of the incident. In the event the reviewed incident data reveals information that will aid in responder situational awareness, SST may (but is not obligated to) include this information as Comments in the Reviewed Alert.

During major holidays such as in the case of New Years Eve, Independence Day, and Cinco de Mayo, most communities experience a large increase in firework activity. During these periods, usually at least 48 hours in advance of the holiday, during the holiday and 48 hours following the holiday, SST will put the system into fireworks suppression mode so that the reviewers can focus their response to incidents classified as gunfire. SST will inform the customer prior to the system being placed in fireworks suppression mode and when fireworks suppression mode is disabled. The actual timing of fireworks suppression mode being active is determined by the review center based on the level of fireworks being discharged. While in fireworks suppression mode, fireworks incident alerts are not sent to the reviewer nor the customer alert console, however all firework incidents continue to be stored in the data base should any of this information be needed at a later time.

The purpose of the Reviewed Alert Service is to provide incident data to the Customer, reviewed, analyzed and classified in the manner described above, in situations where the analyst's qualitative confidence that an incident is or may be gunfire meets the criteria set forth above. However, it is the sole responsibility of the Customer to interpret the data provided, and to determine any appropriate follow-up reaction or response, including whether or not to dispatch emergency responder resources based on a Reviewed Alert. SST does not undertake any obligation, duty or responsibility for reaction, response, or dispatch decisions, which are solely and exclusively the responsibility of Customer, or for the consequences or outcomes of any decisions made or not made by the Customer in reliance, in whole or in part, on any services provided by SST.

The Incidents & Reports Portal provides the Customer with full and immediate access to all incident history including the same information SST uses in its internal review process. This information includes, among other things, the initial incident classification and any reclassifications of an incident, incident audio wave forms, and incident audio files. This enables the Customer to perform its own incident reviews and run various reports. This data access is available as long as the Customer is under active subscription.

### **EXHIBIT B – System Configuration and Service levels**

SST will deploy or have deployed a ShotSpotter Flex system over the agreed upon coverage area. The system will be designed to detect at least 80% of the unsuppressed outdoor gunfire, with a location accuracy to the shooter's location within 25 meters, after sensor calibration. These performance levels are predicated on the deployment of sensors at all such sites, otherwise the foregoing performance levels may be compromised.

The sensors send incident information to a server in a SST hosting facility via third party cellular, wireless or wired networks. SST is not responsible for outages on the third party networks. SST will be responsible for installation and maintenance of the sensors and cost of the sensor communications to the hosted location server. The hosted server infrastructure (exclusive of communications networks) shall be maintained at 99.9% application availability exclusive of scheduled maintenance that SST will make reasonable efforts to coordinate with the customer.

The connection between the reviewer's console and the Customer's Alert Console is secured using a secure message protocol over http connection, where individual messages are encrypted using the same Public Key Infrastructure ("PKI") as a secure VPN connection.

Providing local access to the internet for the Alert Console is the responsibility of the Customer, as is providing a work station with access to the internet. The Customer may choose to set up multiple sessions of Alert Consoles as a form of redundancy.

## Funding Proposal to the City of Newburgh

**Submitted by Project Cat, Inc**  
**Gail Mihocko, Director**  
**Ph/fx: 845-687-4983 cell: 845-750-5433**

**8 February 2016**

**Purpose:** To request funding from the City of Newburgh for providing a public service for removing feral and unowned free-roaming cats where they are unwanted or causing problems in neighborhoods.

**Location:** This request is specifically for the address of 14 Van Cleft Ave, Newburgh, NY and any adjoining neighboring properties onto which the cats are wandering and causing problems. It is our understanding that the cats in this area originated from this property.

**Goal:** To humanely live trap all of the feral and unowned free-roaming cats at 14 Van Cleft Ave and surrounding properties on which these cats wander and may have taken up residence.

**Number of Cats:** We don't know exactly how many cats are loose on the property. According to the home owner who currently feeds them there are approximately 40 cats. There may be more as some cats often stay on the perimeter and out of sight and only come out after dark. Initially we were told there may be as many as 70. We won't know until we start live-trapping. The cats that I saw when I visited 21 January 2016 with Lieutenant Richard Carrion did not have ear clips indicating they were not sterilized and therefore would be breeding at this time of year.

**Amount Requested:** We are requesting a donation fee of \$45 per cat that we live-trap and remove from the property and \$45 for each round trip per vehicle per day that we make to set up and check traps. Funding would help defray costs incurred to employees/volunteers for automobile expense/fuel, travel time, and costs for humane euthanasia and cremation. If we feel any cats might be healthy and adoptable we may take them into our shelter for adoption.

Sample Fee Structure:	12 traps set and 10 cats live trapped in one day:	10 x \$45 = \$450
	1 round trip/2 vehicles to set and check traps:	\$ 90
	<b>Total</b>	<b>\$540</b>

Funding Proposal to the City of Newburgh (page 2)

**Plan of Action:**

1. We will start humanely live-trapping as soon as we receive permission from the City of Newburgh.
2. Once we start live trapping we will continue to trap regularly to complete removal as quickly as possible. As we start to live-trap, some of the cats at 14 Van Cleft Ave may leave the property because of the disturbance and we may ask permission from neighbors to allow us to trap on their property as some of the cats move around.
3. We have met with the property owner and have permission to live trap on the property. We will consult with the property owner to withhold food from cats on days we are planning to live-trap and ask him to continue feeding cats on days we are unable to trap so as to keep the cats on the property and in the area.

**Background on Project Cat:** Project Cat was established in March 2002 as a nonprofit cat shelter to help with Ulster County's overwhelming stray and feral cat population. Our mission is to provide assistance to homeless cats and to ultimately find life-long homes for them or to provide humane euthanasia when there is no other option. We are located in High Falls/Accord.

Our organization is unique in that we travel into the community to pick up cats from people who have no transportation, are elderly, or otherwise have no means with which to bring cats to our shelter. Limited funding and employees limits the numbers of requests to which we can respond. We focus, therefore, on cases where cats are suffering due to neglect from improper care, lack of necessary medical assistance, situations where no action has been taken to spay or neuter resulting in uncontrolled breeding and hoarding cases where large numbers of cats are kept inhumanely in unsanitary and crowded conditions.

We work throughout Ulster County with a focus on the southern part of the county as there are no other shelters providing help in this area. We are funded solely by private donations, fundraisers, adoption fees, small grants from Community Foundations of the Hudson Valley and the private Bea Binger foundation. When our help is requested we are sometimes reimbursed for costs incurred but often times not and we incur the cost which can be a burden.

All the towns in Ulster County have Animal Control Officers however, they are only obligated to respond to calls about dogs. None provide any cat control despite the numbers of cats far exceeding the numbers of dogs. Ulster County has no municipal shelter that accepts all stray animals and the work and burden of costs to help cats fall on private shelters or individuals who themselves have no obligation to help and can pick and choose their cases.

**Domestic cats are a controversial and world-wide issue**

The domestic cat, *Felis catus*, is a much beloved pet world wide. However, it is a domesticated animal meaning it is not native to any habitat and is therefore an introduced species and has now become an invasive species in most habitats. Lax regulations, no mandatory spaying/neutering laws, no licensing requirements, allowing cats to wander freely outdoors and irresponsible pet ownership have led to a world-wide cat overpopulation with compounding problems. This overpopulation has led to millions of cats being euthanized at shelters annually in the United States alone.

In an effort to reduce euthanasia rates, shelters are abandoning euthanasia as a means of population control and becoming "no-kill" shelters without having an alternative *effective* plan in place. In place of euthanasia, a multitude of "rescue" organizations have sprouted to take in cats (and dogs) that are turned away at shelter doors. These rescues and "no-kill" shelters take part in cat programs such as Trap-Neuter-Release/Trap-Neuter-Return (TNR), as well as other forms of TNR including Shelter-Neuter-Return (SNR), Return-To-Field (RTF), barn cat 'programs' and 'community cat' management which allows the cats to be re-abandoned after neutering so they don't continue to reproduce.

All of these programs are fraught with problems. It is impossible to sterilize all the free-roaming cats and as a result the ones that are not captured continue to reproduce at a rapid rate. The programs still continue to allow homeless or feral cats to live outdoors where they suffer from fleas and flea allergies, ticks, ear mites, intestinal parasites, upper respiratory viruses, urinary tract infections and blockages to name a few. They will eventually succumb to an unpleasant death by car hits, dog attacks, disease, infection, exposure, poisoning, cruelty by humans and so many other tragedies that await the outdoor cat.

Cats are responsible for spreading a multitude of diseases and parasites. As their numbers increase outdoors so does the spread of zoonotic organisms such as rabies, toxoplasmosis (spread via cat feces in soil) and Bartonella (cat scratch fever spread by fleas) to name a few. These affect not only human but other domestic and wild animals also. Contagious diseases like feline leukemia, feline aids (FIV) and FIP are specific to cats but are usually fatal and cause great distress.

In addition, cats are predators and instinctually hunt small mammals, birds, reptiles and any small creature that moves and entices them. They hunt regardless of their being fed by humans. With our need to protect and revitalize habitat to which humans have caused so much damage including introducing the domestic cat, it is up to us to remedy the problem and do what is necessary to protect our environment and native wildlife species all of which are crucial for the health of the planet.

No other domestic animal, including dogs, are granted this status of being allowed to roam freely with no laws to restrict their movement to private property or to be leashed, contained indoors or monitored through licensing.

### Funding Proposal to the City of Newburg (page 4)

With the practice of more and more organizations nationwide redefining themselves as "no-kill" shelters the numbers of cats that are turned away by shelters because they are over-filled with cats is increasing and the situations such as at Van Cleft Ave are becoming more numerous, out of control and difficult to keep up with.

### New York State TNR Bill vetoed by Governor Cuomo

On 27 October 2015, Governor Cuomo courageously vetoed a bill that would have diverted state funds away from low cost spay/neuter meant to assist with family owned pets to neutering and releasing cats into the wild. This was a victory for anyone concerned for the welfare of feral and free-roaming cats and for the health of our environment.

The following is the veto from Governor Cuomo:

VETO MESSAGE - No. 203

TO THE ASSEMBLY:

I am returning herewith, without my approval, the following bill:

Assembly Bill Number 2778, entitled:

"AN ACT to amend the agriculture and markets law, in relation to community based initiatives for the purpose of trapping, neutering, vaccinating and returning feral cats to the area from which they were trapped"

This bill would allow for the diversion of up to twenty percent of the State's Animal Population Control Program Fund (APCPF) to be used for community-based initiatives to trap, spay, neuter, vaccinate, and return feral cats to the area where they were found. Such programs are referred to as Trap Neuter and Release (TNR) programs.

Although the goal of this bill is laudable, it is problematic for several reasons. First, I cannot support diverting APCPF funds from existing programs that have already proven effective for humanely controlling feral cat populations. Second, a central tenant of TNR programs is the release of feral cats into the wild. However, that conflicts directly with Agriculture and Markets Law section 374(5), which makes the release of such animals a misdemeanor offense, and would create uncertainty as to the legality of releasing trapped animals. Third, the prevailing science suggests that TNR programs are not guaranteed to reduce feral cat populations, and, even if they do, may take many more years to do so than existing programs. Finally, the return of feral cats to the wild must be balanced against the impacts these cats can have on wildlife, including on threatened and endangered species, habitats, and food sources for native predators. I am therefore constrained to veto this bill.

The bill is disapproved. (signed) ANDREW M. CUOMO
