MY BROTHER'S KEEPER

FACT SHEET: My Brother's Keeper Second Anniversary

On February 27, 2014, in the East Room of the White House, President Barack Obama launched "My Brother's Keeper" (MBK), a call to action to address persistent opportunity gaps facing boys and young men of color and ensure all young people can reach their full potential. The President's vision found its roots in the idea that "my neighbor's child is my child – that each of us has an obligation to give every child the same chance this country gave so many of us." The President's announcement encouraged candid dialogues around the country and a greater sense of responsibility among community leaders and young people themselves to put all youth in a position to thrive, regardless of their race, gender, or socioeconomic status.

Over the course of the past two years, efforts have advanced along three interdependent areas of focus based on the goals laid out in the MBK Presidential Memorandum: Place-Based State and Local Engagement (the MBK Community Challenge); Private-Sector Action (e.g. independent nonprofit, philanthropic and corporate action); and Public Policy review and reform (the work of the MBK Task Force).

Place-Based State and Local Engagement: The MBK Community Challenge

Since late September 2014, more than 200 mayors, tribal leaders, and county executives across 49 states, the District of Columbia, and 19 Tribal Nations have accepted the MBK Community Challenge ("Challenge"). These "MBK Communities" are working with leading experts in youth and community development to design and implement cradle-to-college-and-career action plans.

Within six months of accepting the Challenge, MBK Communities commit to review local public policy, host action summits, and implement their locally tailored action plans to address opportunity gaps. Local Action Summits and similar community-wide gatherings have taken place in the vast majority of these MBK Communities. More than 70 Local Action Plans have been released, and communities continue to finalize their plans.

Private-Sector Action: Business, Philanthropy, and Nonprofits

Foundations, businesses, and social enterprises have responded to the President's call to action by taking steps to ensure that communities have the support they need, and by providing funding and advice for aligned national initiatives. More than \$500 million in non-federal grants and in-kind resources, and \$1 billion in low-interest financing via CDFIs, have been independently committed in alignment with MBK priorities. These funds include investments in safe and effective schools, mentoring programs, juvenile justice reforms and school redesign.

Policy: The Federal Response

The MBK Task Force has encouraged and tracked implementation of the recommendations outlined in the initial 90-day report issued in May 2014 (the Task Force Report). Those efforts have led to greater focus on federal investments that support evidence-based interventions. The federal government has also advanced its efforts to track quality data for boys and young men of color and their peers. The work of My Brother's Keeper is rooted in the following six milestones based on research that has identified key points on the path to adulthood that are especially predictive of later success and where interventions can have the greatest impact:

1. Entering school ready to learn
2. Reading at grade level by third grade
3. Graduating from high school ready for college and career
4. Completing postsecondary education or training
5. Successfully entering the workforce
6. Reducing violence and providing a second chance

The following are a few recent examples of MBK Task Force deliverables:

Equity in IDEA: In February, the Department of Education took a critical step toward addressing widespread disparities in the treatment of students of color with disabilities, proposing a new rule to improve equity in the Individuals with Disabilities Education Act (IDEA).

National Chronic Absenteeism Initiative: In February, the White House and the U.S. Department of Education announced two campaigns to address and eliminate chronic student absenteeism in this country: the My Brother's Keeper (MBK) Success Mentors Initiative -- with 10 initial participating cities -- and a multi-million dollar Ad Council campaign to engage parents on this critical issue. These efforts are part of the federal "Every Student, Every Day" initiative, which aims to address and eliminate chronic absenteeism by at least 10 percent each year.

Rethinking School Discipline: In the summer of 2015, agencies in the MBK Task Force, led by the Department of Education, launched Rethink Discipline, a national campaign to reduce out-of-school suspensions and expulsions. The Task Force released a resource guide for superintendents, a root-cause analysis tool, visual analytics from the National Civil Rights Data Collection and hosted the White House Rethink Discipline convening for over 40 school districts working to reform existing discipline policies and practices.

Summer Opportunity Project: In February, the White House launched the Summer Opportunity Project, a multi-agency effort in partnership with the National Summer Learning Association and other collaborators, which aims to give young people access to their 'First Job,' and encourage investment in programs supporting summer meals and learning. In addition to multiple private sector commitments, such as LinkedIn's Small and Medium Business Engagement Tool, federal agencies are making significant contributions. For example, the Department of Labor announced a new \$20M funding opportunity to expand and enhance existing summer youth employment programs that lead to year-round work experience and lifetime career pathways.

Second Chance Pell Pilot Program: In July of 2015, the Departments of Education and Justice announced Second Chance Pell, a pilot program to test new models to allow incarcerated Americans to receive Pell Grants to support the pursuit of their postsecondary education.

Banning the Box in Federal Employment: In November, the President called on Congress to follow a growing number of states, cities, and private companies that have decided to "ban the box" on job applications and directed the Office of Personnel Management to take action where it can by modifying its rules to delay inquiries into criminal history until later in the hiring process.

Juvenile Reentry Assistance Program Awards to Support Public Housing Residents: In November, the Department of Housing and Urban Development (HUD), in collaboration with the Department of Justice, announced it will provide \$1.75 million to aid eligible public housing residents under the age of 25 to expunge or seal their records. The National Bar Association committed to supplementing this program with 4,000 hours of pro bono legal services.

1.0 INTRODUCTION: LOCATION, DESCRIPTION AND PURPOSE OF PROPOSED ACTION

1.1 Introduction

Pursuant to the New York State Environmental Quality Review Act (SEQR) this Environmental Assessment Form (EAF) – Part 1 evaluates the potential impacts that could result from the following action by the City of Newburgh City Council, Newburgh, New York: Adoption of an updated Local Waterfront Revitalization Program (LWRP). The action consists solely of the adoption of the LWRP and therefore will not result in any direct construction or development.

1.2 Project Location

The City of Newburgh is located approximately 60 miles north of New York City and 85 miles south of Albany, on the western side of the Hudson River in Orange County (see Figure 1: Regional Location Map). The City, a small, densely settled community in a 3.8-square-mile area, is bounded by the Town of Newburgh on the north and west, the Hudson River on the east and the Town of New Windsor on the south. On the east, Newburgh's corporate limits extend to the centerline of the Hudson River where they meet the west limits of the City of Beacon and Dutchess County. Quassaick Creek, a tributary of the Hudson River, is coterminous with a portion of the city's southern boundary. The City is in the coastal area of New York State as defined by the state Legislature.

The Newburgh LWRP area boundary is as follows (see Figure 2):

Beginning at the point of intersection of the municipal boundary between the Town of Newburgh and the City of Newburgh and mean high water; then westerly along that boundary to the point where North Plank Road intersects with Powell Avenue; then southerly along Powell Avenue to Gidney Avenue; then southeasterly along Gidney Avenue to Liberty Street; then southerly along Liberty Street to Overlook Place; then westerly along Overlook Place to Mill Street; then northerly along Mill Street to Dickson Avenue; then westerly along Dickson Avenue to Walsh's Road; then southerly to the northern parcel boundary of a multifamily residential development; then westerly along that parcel boundary; then northeasterly along Lake Street; then westerly, southerly and easterly along Lake Drive to the intersection of Lake Street and the boundary between the Town of New Windsor and the City of Newburgh, delineated by the Quassaick Creek; then easterly along that boundary to the point of intersection with mean high water.

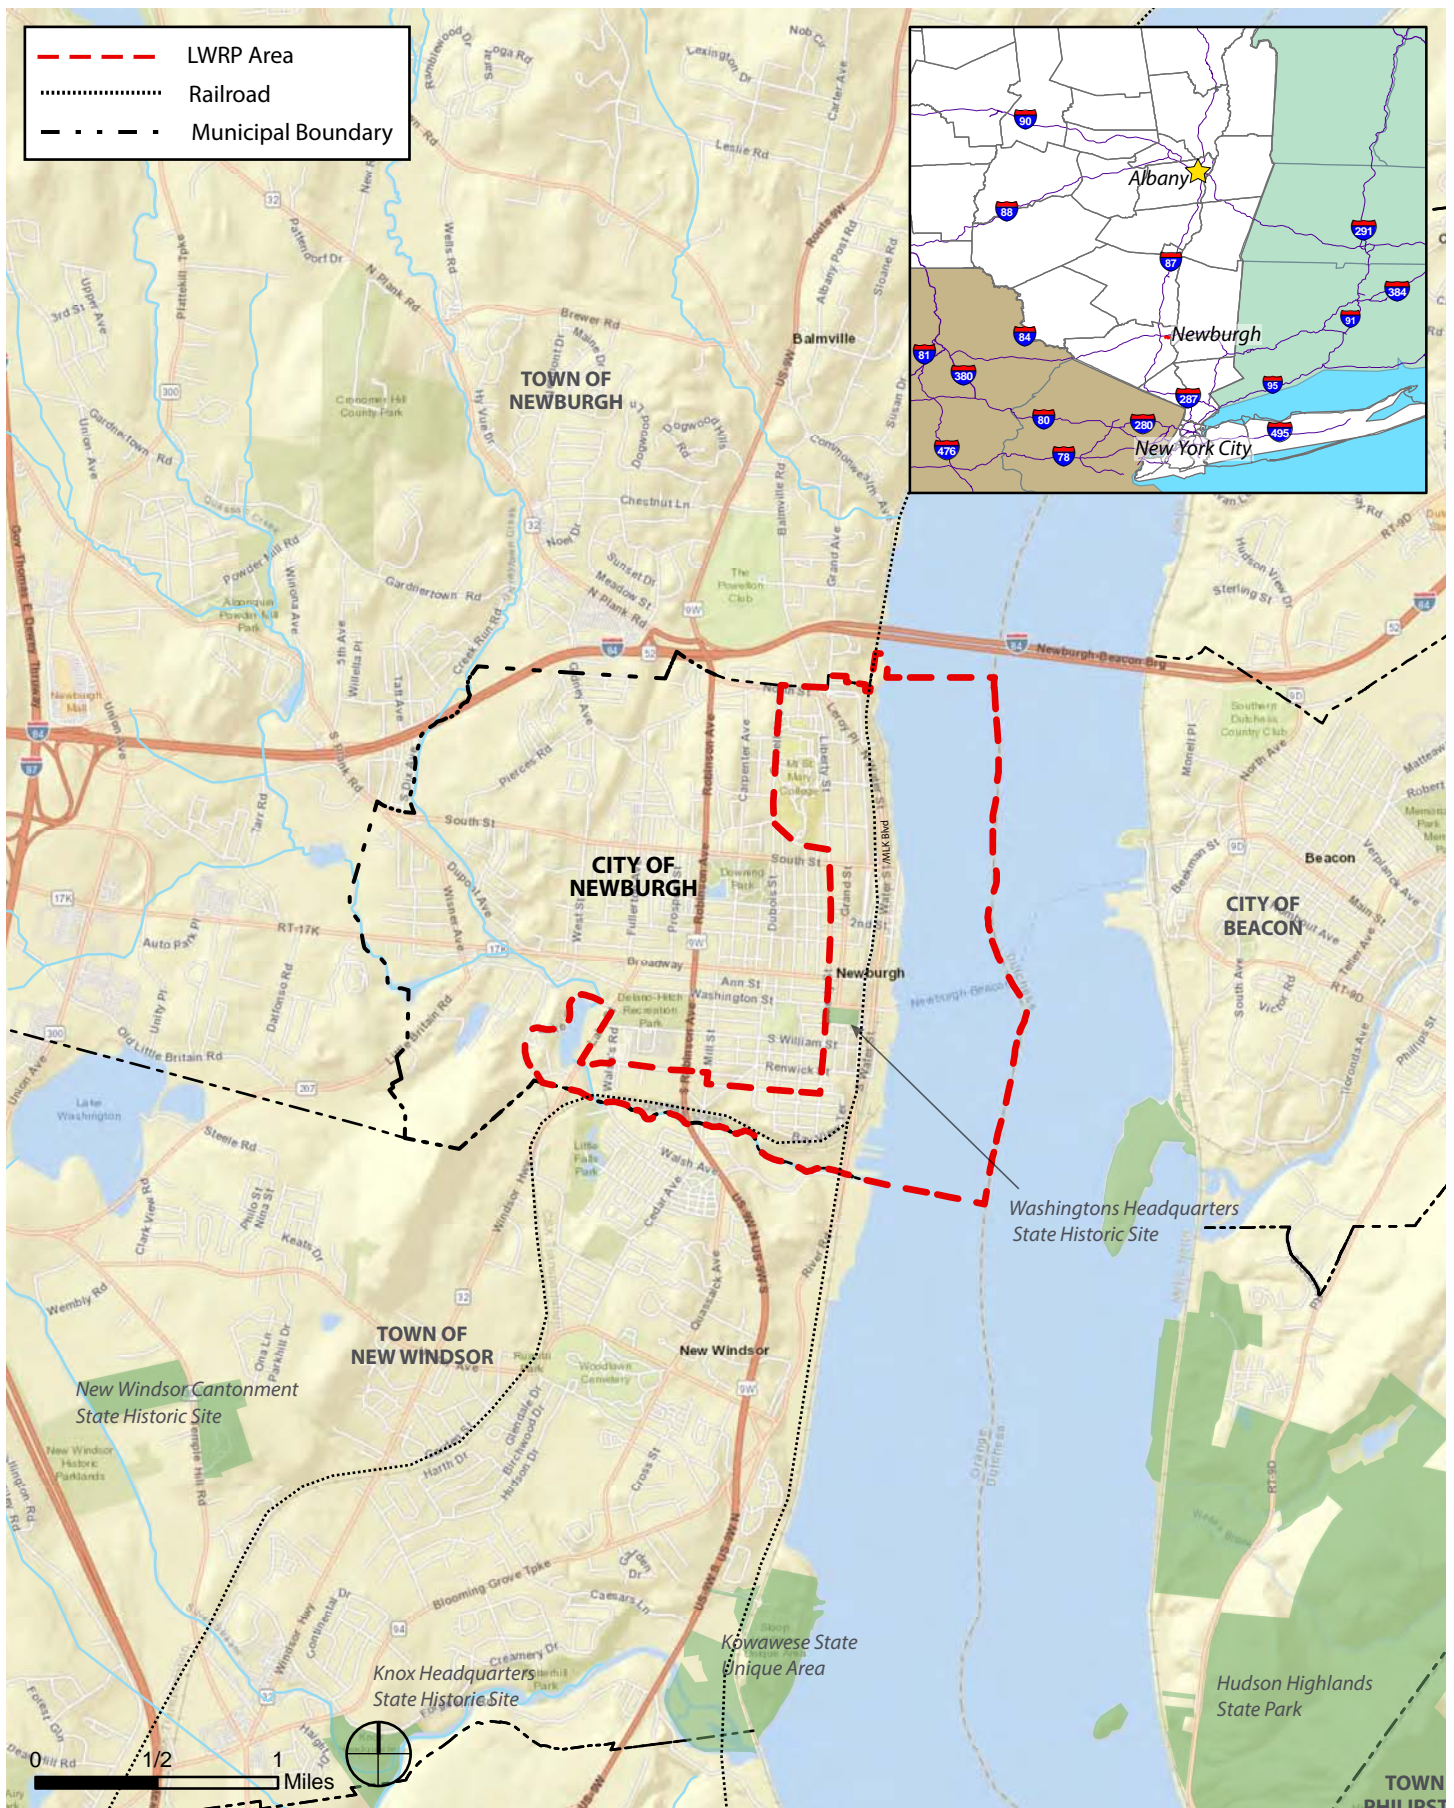

Figure 1: Regional Location Map

Figure 2: LWRP Boundary

The LWRP area includes the Hudson River, the area surrounding Muchattoes Lake and portions of Quassaick Creek within the City's municipal boundaries. Over the Hudson River, the City's municipal boundary extends to the centerline of the river.

The waterside boundary of the City of Newburgh LWRP area is as follows:

Beginning at the point of intersection of the northern boundary of the Town of New Windsor and the southern boundary of the City of Newburgh and mean high water extending to the centerline of the Hudson River; then northerly coterminous with the eastern boundary of Orange County; then westerly to the point of intersection with the northern boundary of the Town of Newburgh and the City of Newburgh and mean high water.

1.3 Project Description

As the New York State Department of State (NYS DOS) describes, a Local Waterfront Revitalization Program (LWRP) is “both a land and water use plan prepared by a community, as well as the strategy to implement the plan.” An approved LWRP reflects community consensus and provides a clear direction for appropriate future development. In addition, State permitting, funding and direct actions must be consistent, to the maximum extent practicable, with an approved LWRP. Within the Federally defined coastal area, Federal agency activities are also required to be consistent with an approved LWRP.

In 1992, the City prepared its first LWRP to strengthen the City's role for managing its water and waterfront resources. In that same year, the City Council adopted the City's Waterfront Consistency Review Law (Chapter 296 of the City's Code of Ordinances) to implement the LWRP. The 1992 LWRP was adopted by the City and approved by the State of New York in accordance with authority provided by Article 42 of the New York Executive Law. The LWRP contained the City's policies and recommendations, consistent with the coastal management policies of the state, to promote beneficial waterfront development enhanced by or dependent on the City's waterfront resources and in balance with protection of the its natural coastal resources.

In accordance with Article 42 of the New York Executive Law, the City's LWRP became a required element of the New York State Coastal Management Program. As a result, State and federal actions affecting the City's LWRP Area must be consistent with the LWRP's policies and other provisions. This consistency requirement is a significant tool that the City uses to ensure that state and federal actions conform to Newburgh's needs, interests and conditions.

The 1992 Waterfront Consistency Review Law also established the Newburgh Waterfront Advisory Committee (WAC), to be responsible for reviewing proposed actions affecting the LWRP Area, considering the consistency of such actions with the LWRP and making

recommendations regarding that consistency to the agencies responsible for approving or implementing the proposed actions. In 2013, the City Council repealed Chapter 296 and replaced it with Chapter 159 Conservation, which established a Conservation Advisory Council (CAC) and regulations for implementation of the LWRP.

In 1999, because of redevelopment initiatives, the City of Newburgh determined it was timely to revise and update the 1992 LWRP. This update was prepared by staff from several City departments and reflected current land uses, economic, natural, infrastructure, and community service policies as they relate to the community's local waterfront revitalization area. The revised LWRP was adopted by the City Council and approved by the State of New York in 2001.

In 2007, again because of redevelopment initiatives in the waterfront area the City determined it was appropriate to update its LWRP as well as prepare a Harbor Management Plan (HMP). Due to a number of factors, including the 2008 economic downturn, the 2007 LWRP Update was never completed. In 2016, the City undertook a targeted update to the 2007 draft LWRP update. This amendment to the existing LWRP, updates the existing conditions within the LWRP area to reflect changes experienced in the area since 2001, with the following objectives:

- Preserving open space and increasing public access to the waterfront
- Linking the waterfront to the historic district, Washington's Headquarters and the Broadway commercial area
- Addressing parking issues on the waterfront by planning for and integrating inter-modal and multi-modal transportation links to the waterfront
- Identifying contaminated sites in and adjacent to the LWRP area and planning for contaminant remediation
- Preparation of a Harbor Management Plan, as set forth in 19 NYCRR Part 603 and further described in guidelines prepared by the Department of State

Upon approval and adoption of this 2016 LWRP Update, the LWRP and the fully integrated HMP will be applied by the City to address issues regarding waterfront land-use and development. Once the LWRP is adopted, any Type 1 or Unlisted action under SEQRA is required to be reviewed by the lead agency for consistency with the coastal policies and the projects contained within the LWRP. In order to ensure local consistency with the LWRP, the lead agency's determination of consistency will be made with the benefit of an advisory recommendation of consistency from the CAC.

In addition, the City adopted a new Zoning Code in 2015 to implement the recommendations contained in the 2008 "*Plan-It Newburgh*" Sustainable Master Plan and the 2011 City of Newburgh Future Land Use Plan. As part of the amendments to the Zoning Code, new zoning was adopted within the City's LWRP area that seek to provide for the redevelopment and adaptive reuse of the City's waterfront as well as those neighborhoods proximate thereto. This new Code replaced the previous Zoning Code with a hybrid code containing both traditional

zoning districts and form-based districts. The LWRP has been updated to reflect the new zoning, as well as other changes in the LWRP area.

Other “macro” changes that are reflected in the updated LWRP include new development throughout the region, changes in State and Federal laws and current best practices to improve water quality and the impacts of global climate change and sea level rise.

The proposed LWRP includes an expansion of the LWRP area to include Muchattoes Lake and the land area immediately adjacent to it, including Lake Street Apartments and the Lake Street Plaza (Section I). The LWRP also includes a complete update of Section II of the document, the inventory and analysis. This section describes existing conditions for a range of topics, including, land and water-side uses, natural features and infrastructure. The section also includes a discussion of potential planning issues.

Section III of the LWRP, Policies, has been updated to reflect current conditions and priorities, as well as to streamline and clarify the intent of the policies. The proposed LWRP policies are as follows:

Developed Coast Policies

Policy 1: Restore, revitalize, and redevelop deteriorated and underutilized waterfront areas for commercial, industrial, cultural, recreational and other compatible uses.

Policy 1A: Redevelop and revitalize under-utilized and/or vacant industrial and heavy commercial properties located north of the quassaick creek (Sub-Area A – southern/quassaick creek area).

Policy 1b: Redevelop and revitalize the land area west of rev. Dr. Martin luther king jr. Boulevard (Sub-Area B – upland area) for commercial, cultural, institutional, residential, and recreational uses, with emphasis on integrating uses which are water-enhanced such as public parks with views to the river.

Policy 1C: Redevelop and revitalize the land area between rev. Dr. Martin luther king jr. Boulevard and the hudson river (Sub-Area C – waterfront area) to include water-dependent and water-enhanced mixed-use residential, recreational, commercial, and open space uses which incorporate public access to the hudson river.

Policy 1D: Create a pedestrian link to the uses along the waterfront and link the western portion of the lwrp area along the quassaick creek with the waterfront, especially along the broadway corridor and from washington's headquarters and the montgomery-grand-liberty streets historic district neighborhoods.

Policy 1E: Encourage sustainable building practices and green building design as part of all redevelopment activities throughout the entire LWRP area.

Policy 2: Facilitate the siting of water-dependent uses and facilities on or adjacent to coastal waters.

Policy 3: Further develop the state's major ports of Albany, Buffalo, New York, Ogdensburg, and Oswego as centers of commerce and industry, and encourage the siting, in these port areas, including those under the jurisdiction of state public authorities, of land use and development which is essential to, or in support of, the waterborne transportation of cargo and people. *(This State policy is not applicable to the City of Newburgh.)*

Policy 4: Strengthen the economic base of smaller harbor areas by encouraging the development and enhancement of those traditional uses and activities which have provided such areas with their unique maritime identity.

Policy 4A: Redevelop the harbor for promotion of water-dependent and water-enhanced uses.

Policy 5: Encourage the location of development in areas where public services and facilities essential to such development are adequate.

Policy 6: Expedite permit procedures in order to facilitate the siting of development activities at suitable locations.

Fish and Wildlife Policies

Policy 7: Significant coastal fish and wildlife habitats will be protected, preserved, and where practical, restored so as to maintain their viability as habitats. *(This State policy is not applicable to the City of Newburgh.)*

Policy 7A: Activities that would adversely affect fish resident in or migrating through waters adjacent to Newburgh will be avoided.

Policy 8: Protect fish and wildlife resources in the coastal area from the introduction of hazardous wastes and other pollutants which bio-accumulate in the food chain or which cause significant sublethal or lethal effect on those resources.

Policy 8A: New developments or expansion of existing facilities will not be permitted if such facilities introduce hazardous wastes or other pollutants into the environment or if they are unable to acquire the necessary state, federal, and local permits.

Policy 9: Expand recreational use of fish and wildlife resources in coastal areas by increasing access to existing resources, supplementing existing stocks, and developing new resources.

Policy 9A: Incorporation of a pedestrian walkway along the waterfront as part of development/redevelopment of waterfront parcels shall be encouraged wherever possible to provide public access for fishing and wildlife observation and scenic view appreciation.

Policy 10: Further develop commercial finfish, shellfish, and crustacean resources in the coastal area by encouraging the construction of new, or improvement of existing on-shore commercial fishing facilities, increasing marketing of the state's seafood products, and maintaining adequate stocks and expanding aquaculture facilities.

Flooding and Erosion Policies

Policy 11: Buildings and other structures will be sited in the coastal area so as to minimize damage to property and the endangering of human lives caused by flooding and erosion.

Policy 11A: All development on property which includes flood hazard areas will be located at an elevation above the 100-year-flood plain.

Policy 12: Activities or development in the coastal area will be undertaken so as to minimize damage to natural resources and property from flooding and erosion by protecting natural protective features including beaches, dunes, barrier islands and bluffs.

Policy 12A: Major grading and clearing activities will be discouraged on the Washington Heights bluff to avoid soil erosion impacts to Quassaick Creek and the Hudson River.

Policy 13: The construction or reconstruction of erosion protection structures shall be undertaken only if they have a reasonable probability of controlling erosion for at least thirty years as demonstrated in design and construction standards and/or assured maintenance or replacement programs.

Policy 14: Activities and development, including the construction or reconstruction of erosion protection structures, shall be undertaken so that there will be no measurable increase in erosion or flooding at the site of such activities or development, or at other locations.

Policy 15: Mining, excavation or dredging in coastal waters shall not significantly interfere with the natural coastal processes which supply beach materials to land adjacent to such waters and shall be undertaken in a manner which will not cause an increase in erosion of such land.

Policy 16: Public funds shall only be used for erosion protective structures where necessary to protect human life, and new development which requires a location within or adjacent to an

erosion hazard area to be able to function, or existing development; and only where the public benefits outweigh the long term monetary and other costs including the potential for increasing erosion and adverse effects on natural protective features.

Policy 17: Non-structural measures to minimize damage to natural resources and property from flooding and erosion shall be used whenever possible.

General Policy

Policy 18: To safeguard the vital economic, social and environmental interests of the state and of its citizens, proposed major actions in the coastal area must give full consideration to those interests, and to the safeguards which the state has established to protect valuable coastal resource areas.

Policy 18A: Maintain and improve existing low- and moderate-income housing and provide additional such housing.

Public Access Policies

Policy 19: Protect, maintain and increase the level and types of access to public water-related recreation resources and facilities.

Policy 19A: Improve pedestrian, vehicular (motorized and non-motorized) and public access to Newburgh landing and waterfront park and any new developments along the Hudson River. Minimize the barrier created by the railroad embankment through landscaping and related amenities.

Policy 19B: Implement improvements to the transportation elements within the waterfront area and provide improved transit links between the waterfront and the region. In particular, pursue transit links among the waterfront, upland areas, downtown Newburgh, the Broadway corridor and Stewart international airport.

Policy 19C: Best-management practices will be used to ensure the efficient provision of parking facilities while reducing the amount of impervious surfaces and resultant stormwater runoff.

Policy 20: Access to the publicly owned foreshore and to lands immediately adjacent to the foreshore or the water's edge that are publicly owned shall be provided and it shall be provided in a manner compatible with adjoining uses.

Policy 20A: Where redevelopment of city-owned waterfront property is undertaken, public waterfront walkways and open spaces will be incorporated into the new development; and

provision will be made to link such public areas in a network of public walkways and open spaces within the LWRP area.

Recreation Policies

Policy 21: Water-dependent and water enhanced recreation will be encouraged and facilitated, and will be given priority over non-water related uses along the coast.

Policy 21A: Encourage additional and improve existing waterfront access along the Hudson River and the Quassaick creek to help increase public enjoyment of the waterfront and the recreational usage of fish and wildlife habitats.

Policy 21B: Docking facilities for transient vessels, especially large passenger vessels, will be provided wherever possible in new development and at existing public launch and docking areas.

Policy 22: Development, when located adjacent to the shore, will provide for water-related recreation, as a multiple use, whenever such recreational use is appropriate in light of reasonably anticipated demand for such activities and the primary purpose of the development.

Policy 22A: Development along the waterfront in the Washington Street, lower Broadway, Newburgh Landing and Newburgh Yacht Club areas shall be encouraged to provide public access.

Historic and Scenic Resources Policies

Policy 23: Protect, enhance and restore structures, districts, areas or sites that are of significance in the history, architecture, archeology or culture of the state, its communities, or the nation.

Policy 23A: No changes in any exterior architectural feature, including, but not limited to, construction, alteration, restoration, removal, demolition, or painting, shall be made to identified resources except as hereinafter provided.

Policy 24: Prevent impairment of scenic resources of statewide significance, as identified on the coastal area map.

Policy 25: Protect, restore or enhance natural and man-made resources which are not identified as being of statewide significance, but which contribute to the overall scenic quality of the coastal area.

Policy 26: Conserve and protect agricultural lands in the state's coastal area. *(This State policy is not applicable to the City of Newburgh.)*

Policy 27: Decisions on the siting and construction of major energy facilities in the coastal area will be based on public energy needs, compatibility of such facilities with the environment, and the facility's need for a shorefront location.

Policy 28: Ice management practices shall not interfere with the production of hydroelectric power, damage significant fish and wildlife and their habitats, or increase shoreline erosion or flooding.

Policy 29: Encourage the development of energy resources on the outer continental shelf, in lake Erie and in other water bodies, and ensure the environmental safety of such activities. *(This State policy is not applicable to the City of Newburgh.)*

Water and Air Resources Policies

Policy 30: Municipal, industrial, and commercial discharge of pollutants, including but not limited to, toxic and hazardous substances, into coastal waters will conform to state and national water quality standards.

Policy 31: State coastal area policies and management objectives of approved local waterfront revitalization programs will be considered while reviewing coastal water classifications and while modifying water quality standards; however, those waters already overburdened with contaminants will be recognized as being a development constraint.

Policy 32: Encourage the use of alternative or innovative sanitary waste systems in small communities where the costs of conventional facilities are unreasonably high, given the size of the existing tax base of these communities. *(This State policy is not applicable to the City of Newburgh.)*

Policy 33: Best management practices will be used to ensure the control of stormwater runoff and combined sewer overflows draining into coastal waters.

Policy 34 discharge of waste materials into coastal waters from vessels subject to state jurisdiction will be limited so as to protect significant fish and wildlife habitats, recreational areas and water supply areas.

Policy 35: Dredging and filling in coastal waters and disposal of dredged material will be undertaken in a manner that meets existing state permit requirements, and protects significant

fish and wildlife habitats, scenic resources, natural protective features, important agricultural lands, and wetlands.

Policy 36: Activities related to the shipment and storage of petroleum and other hazardous materials will be conducted in a manner that will prevent or at least minimize spills into coastal waters; all practicable efforts will be undertaken to expedite the cleanup of such discharges; and restitution for damages will be required when these spills occur.

Policy 36A: Storage areas for petroleum and other hazardous materials will be bermed to prevent on-site spills from entering coastal waters. No more than 150 gallons of such materials shall be kept in temporary storage facilities at any one time.

Policy 37: Best management practices will be utilized to minimize the non-point discharge of excess nutrients, organics and eroded soils into coastal waters.

Policy 38: The quality and quantity of surface water and groundwater supplies will be conserved and protected, particularly where such waters constitute the primary or sole source of water supply.

Policy 39: The transport, storage, treatment and disposal of solid wastes, particularly hazardous wastes, within coastal areas will be conducted in such a manner so as to protect groundwater and surface water supplies, significant fish and wildlife habitats, recreation areas, important agricultural land, and scenic resources.

Policy 39A: Dumping of solid and hazardous wastes in the coastal waters of the City of Newburgh is prohibited.

Policy 40: Effluent discharged from major steam electric generating and industrial facilities into coastal waters will not be unduly injurious to fish and wildlife and shall conform to state water quality standards.

Policy 41: Land use or development in the coastal area will not cause national or state air quality standards to be violated.

Policy 42: Coastal management policies will be considered if the state reclassifies land areas pursuant to the prevention of significant deterioration regulations of the federal clean air act.

Policy 43: Land use or development in the coastal area must not cause the generation of significant amounts of acid rain precursors: nitrates and sulfates.

Wetlands Policy

Policy 44: Preserve and protect tidal and freshwater wetlands and preserve the benefits derived from these areas.

2.0 FULL ENVIRONMENTAL ASSESSMENT FORM – Part 1

Part 1 of this Full Environmental Assessment Form (EAF) evaluate the potential for environmental impacts to be created by the approval of the LWRP Update by the City of Newburgh City Council. This legislative action is generic in nature, not site-specific, and does not directly result in physical changes to the environment.

The form that follows is published by the New York State Department of Environmental Conservation, and portions are designed for site-specific actions rather than area-wide or generic proposals. As a result, consistent with the form's directions, these non-relevant sections (contained in Sections D and E of the EAF – Part 1) are not completed.

PROJECT TITLE: Newburgh Local Waterfront Revitalization Program (LWRP)

PROJECT

LOCATION: The LWRP area encompasses all lands, including waters, north of the City's municipal boundary with the Town of New Windsor and south of the Town of Newburgh to the north, extending into the Hudson River to the municipal boundary with the City of Beacon. The LWRP Area extends west along the Quassaick Creek and around Muchattoes Lake, then back east along Lake Street to Dickson Street to Overlook Place, then north along Liberty Street to Powell Avenue

SEQR TYPE: Type I Action

PROJECT

DESCRIPTION: Pursuant to the New York State Environmental Quality Review Act (SEQR) this Environmental Assessment Form (EAF) – Part 1 evaluates the potential impacts that could result from the following action by the City of Newburgh City Council, Newburgh, New York: Adoption of an updated Local Waterfront Revitalization Program (LWRP). The action consists solely of the adoption of the LWRP and therefore will not result in any direct construction or development.

The proposed LWRP includes an expansion of the LWRP area to include Muchattoes Lake and the land area immediately adjacent to it, including the Lake Street Apartments and Lake Street Plaza (Section I). The LWRP also includes a complete update of Section II of the document, the inventory and analysis. This section describes existing conditions for a range of topics, including, land and water-side uses, natural features and infrastructure. The section also includes a discussion of potential planning issues. Section III of the LWRP, Policies, has been updated to reflect current conditions and priorities, as well as to streamline and clarify the intent of the policies. Based on the LWRP policies, discussions with the LWRP Working Group and City staff, site visits and input from the public, the LWRP proposes a set of site-specific and programmatic projects to be undertaken in order to

implement the LWRP. See attached EAF narrative for additional details. This notification is for the purpose of designating a lead agency according to the requirements of Article 8 of New York State Environmental Conservation Law for the following proposed action:

RESOLUTION NO.: ²³_____ - 2017

OF

JANUARY 23, 2017

**A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF NEWBURGH, NEW YORK,
REQUESTING THE NEW YORK STATE DEPARTMENT OF ENVIRONMENTAL
CONSERVATION AS CO-LEAD AGENCY REQUIRE SUBMISSION AND
IMPLEMENTATION OF AN ENHANCED PUBLIC PARTICIPATION PLAN UNDER
CP-29 PRIOR TO THE COMMENCEMENT OF SCOPING UNDER SEQRA
FOR THE CITY OF NEWBURGH AND ALL OTHER POTENTIAL ENVIRONMENTAL
JUSTICE AREA COMMUNITIES IDENTIFIED AS POTENTIALLY AFFECTED BY
THE PILGRIM PIPELINE PROJECT**

WHEREAS, by Resolution No. 27-2015 of February 9, 2015, the City of Newburgh unanimously objected and opposed the proposed Pilgrim Pipeline project; called upon the New York State Thruway Authority to reject use of its right-of-way for the purpose of transporting oil or gas by pipeline; and further called upon the New York State Department of Transportation to deny an exception to its Accommodation Plan for said purpose; and urged Governor Cuomo and the State Legislature to oppose construction of the Pilgrim Pipeline in New York State; and

WHEREAS, the Pilgrim Pipeline Project will be considered a State Environmental Quality Review Act (SEQRA) Type 1 action under 6 NYCRR Part 617; and

WHEREAS, the City of Newburgh is one of 29 municipalities in the State of New York identified as “Involved” agencies for purposes of SEQRA for the Pilgrim Pipeline Project, which gives the City of Newburgh the opportunity to outline impacts and gather information in the scoping process of the Pilgrim Pipeline Project; and,

WHEREAS, the dramatic increase in the amount of crude oil transported on the railroad that transects our City has the potential for a profound and detrimental effect upon our environment and the health and safety of our residents; and

WHEREAS, the addition of a crude oil pipeline through a portion of our City will only exacerbate the effects and risks; and

WHEREAS, within the City of Newburgh there is one potential Environmental Justice Area(s) according to the New York State Department of Environmental Conservation (“NYS DEC”) and beside the threat to the health and safety to all residents of the City of Newburgh, including the Environmental Justice areas there are two drinking water reservoirs whose watersheds are in direct proximity to the proposed Pilgrim Pipeline that supplies all residents in the Environmental Justice area and in the City of Newburgh with drinking water; and

WHEREAS, the NYS DEC's Environmental Justice ("EJ") Policy (Commissioner Policy-29) is designed to ensure that minority and low-income communities, like ours, play a meaningful role in NYS DEC's permit review processes and the NYS DEC's application of SEQRA as early as possible and CP-29 recognizes that our community has been disproportionately affected by adverse environmental impacts, identifies the City of Newburgh as a potential environmental justice area and also requires that any applicant for a major project must "submit a written public participation plan as part of its complete application"; and

WHEREAS, it is our intention to engage the citizens of the City of Newburgh, NY in the Pilgrim Pipeline's SEQRA scoping and review process; and

WHEREAS, in anticipation of the soon-to-begin SEQRA scoping process for Pilgrim Pipeline, it would appear that unless there is an enhanced public participation plan approved and in place before the release of the draft scope, it will be difficult to engender meaningful and timely EJ community engagement during the 60-day period between release of the draft and completion of the final scope; a key information gathering time, and waiting to implement a public participation plan during or after scoping will largely nullify the most effective aspiration of CP-29, which is to involve an EJ community as early as possible in the review process; and

WHEREAS, according to Commissioner Policy CP-29, to ensure meaningful and effective public participation, the policy requires applicants for permits covered by the policy to actively seek public participation throughout the permit review process and applicants, such as Pilgrim Pipeline, are encouraged to consider implementing the public participation plan components *prior to application submission*. (emphasis added); and

WHEREAS, according to Commissioner Policy CP-29, the public participation plan must, at a minimum, (1) identify stakeholders, including nearby residents, local elected officials, community-based organizations and community residents; (2) provide for distribution and posting of written information on the proposed action and permit review process; and (3) provide for public information meetings to keep the public informed about the proposed action and permit;

NOW THEREFORE BE IT RESOLVED, that the City Council of the City of Newburgh, New York requests the New York State Department of Environmental Conservation to postpone releasing the draft scope until Pilgrim Pipeline has implemented an approved public participation plan under Commissioner Policy CP-29 for the City of Newburgh and for all other EJ communities affected by Pilgrim Pipeline; and

BE IT FURTHER RESOLVED, that the City Clerk of the City of Newburgh, New York forward copies of this resolution to Basil Seggos, Commissioner New York State Department of Environmental Conservation, 625 Broadway, Albany, NY 12233-1750 and Bill Finch, Acting Executive Director New York State Thruway Authority, 200 Southern Boulevard, P.O. Box 189, Albany, NY 12201-189.

ORDINANCE NO.: ____- 2017

OF

_____, 2017

AN ORDINANCE AMENDING CHAPTER 240, ENTITLED “RENTAL PROPERTIES” OF THE CODE OF ORDINANCES OF THE CITY OF NEWBURGH

BE IT ORDAINED, by the Council of the City of Newburgh, New York that Chapter 240, Rental Properties be and is hereby amended to read as follows:

SECTION 1. Article I. Rental License

§ 240-1. Findings and purpose.

The City Council has determined that there exists in the City of Newburgh a significant number of non-owner-occupied rental units. Non-owner occupants are less able to maintain daily oversight of their properties to ensure compliance with applicable laws, rules, and regulations. The City Council finds that the registration of rental properties is intended to and will ensure the protection of persons and property in all existing rental structures and on all premises required to be registered under this chapter. Further, the registration of rental properties will ensure that rental property owners adhere to applicable code provisions governing the use and maintenance of rental properties, including provisions limiting the maximum occupancy for which a rental property can be certified. It is the purpose of this chapter to protect the health, safety, and welfare of the residents of the City of Newburgh, as well as to protect the City's housing stock from deterioration by establishing a program for registering and identifying residential rental properties and for determining the responsibilities of owners of residential rental properties.

§ 240-2. Definitions.

As used in this chapter, the following terms shall have the meanings indicated:

AGENT – Any person who has charge, care, or control of a building, or part thereof, in which rental dwelling units or rooming units are let.

BUILDING – A combination of materials, whether portable or fixed, having a roof to form a structure affording shelter for persons, animals, or property.

DWELLING – A building used in whole or part for residential uses.

~~Strikethrough~~ denotes deletions

Underlining denotes additions

DWELLING UNIT – Any room or contiguous group of rooms within a building and forming a single, habitable living space for one family.

MUNICIPAL OFFICER – The Fire Chief, Director of the Code Compliance Bureau, and the Building Inspector or such official within that department as may be designated by the Director in writing.

OWNER – Any individual or individuals, partnership, or corporation or any similar type of business organization, whether for profit or otherwise, in whose name title to a building stands, including a mortgagee or vendee in possession, assignee of rents, receiver, executor, trustee, lessee, agent, or any other person, firm, or corporation directly or indirectly in control of the property. Each, any, and all such persons shall have a joint and severable obligation for compliance with the provisions of this chapter.

OWNER-OCCUPIED DWELLING – A dwelling occupied by an individual owner or by members of his or her family on a nonrental basis. For the purposes of this chapter, "owner-occupied" shall not include any building owned by a partnership, corporation, or any similar type of business organization, including but not limited to a mortgagee or vendee in possession, assignee of rents, receiver, executor, trustee, lessee, or agent.

RENTAL PROPERTY – All buildings that contain a dwelling unit or a rooming unit that is rented, leased, let, or hired out to be occupied for residential or mixed use (commercial-residential) and are not owner-occupied.

ROOMING UNIT – Any furnished room for rent within a building and forming a single sleeping space.

TENANT – A person in possession or control of a dwelling, dwelling unit or a rooming unit under a written lease or oral agreement for the payment of money.

§ 240-3. Rental License Process.

- A. Effective June 1, 2013, the owner of any rental property as defined herein shall, within 60 days of the effective date of this chapter or within 30 days after assuming ownership of the rental property, whichever is later; or within 10 days of receipt of notice by the municipality, submit a rental license application for such rental property with the municipal officer on forms provided for that purpose by the municipal officer along with any fees required by Chapter 163. Failure to receive notice by the municipality shall not constitute grounds for failing to register the property.
- B. Each rental property having a separate section block and lot number shall be registered separately.
- C. The license rental application shall include the information required under § 240-4, as well as any additional information that the municipal officer may reasonably require.
- D. It shall be unlawful for any owner to offer any unit for rent or to rent any dwelling unit or to allow any dwelling unit to be occupied without having first received a rental license

pursuant to this chapter as required herein within the time prescribed for such registration. Failure to receive notice of the rental license deadline will not excuse failure to receive a rental license for a rental property. It is the responsibility of the owner to fulfill the requirements of this chapter.
